From July 27th thru July 30th, 1982, six (6) upland game guzzlers were installed on lands within the Craig Mountain Wildlife Management Area. The project was a cooperative effort between the Bureau of Land Management and the Idaho Department of Fish and Game. Each guzzler consists of a 500 gallon cistern tank, top with a bird ramp, and 2 (4 feet by 8 feet) water collection aprons. The guzzlers were installed primarily for the benefit of chukar partridge. Other wildlife species will also be benefitted with the supplying of water in water shortage areas.
