RE: Water Right No. 85-07342

Dear Mr. Segó:

Thank you for calling yesterday to discuss your water right. As I explained, I sent you a request for an amendment of your permit because the field examiner mapped your point of diversion and your place of use in a location that did not coincide with the locations listed on your approved permit. This finding was corroborated by a phone call to the Idaho County Assessor's Office. Because the actual development was different than was permitted, the Department cannot issue a water right license to you unless your permit is amended.

Moreover, because you did not respond to our two attempts to procure the amendment from you, the Department issued a preliminary order to void your permit. At this point you must also petition the Department for reinstatement of your permit. The petition can be in the form of a letter explaining why you did not respond to our letters and asking for reinstatement of the permit.

As we discussed on the phone, I have enclosed a photocopy of the map submitted by our field examiner. It shows your water use to be in the SWNE of Section 18, not in the SENW of Section 18 as was authorized on your permit. Please review the map to determine if you concur with it. If you do, please submit the enclosed Application for Amendment of Permit and the \$50.00 fee along with your petition for reinstatement.

If you do not concur with the examiner's findings, please submit some information to demonstrate the actual location of your point of diversion and place of use, and include your petition for reinstatement.

If you have any questions, please contact me at 208-327-7946.

Dear Permit Holder:

The accompanying order is a "preliminary order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the department unless a party petitions for reconsideration within fourteen (14) days after issuance as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the hearing officer within fourteen (14) days of the service date of this order. The hearing officer will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the agency.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Director. The Director retains the right to review the preliminary order on his own motion.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for Right 85-07342 are based on the information below:

C. DIVERSION AND DELIVERY SYSTEM

The point of diversion and the place of use location listed in this part of the exam agrees with the permit but not the exam map. I contacted the Idaho County Assessor's Office and the correct legal description agrees with the map. Both p/d and p/u are in the N $\frac{1}{2}$ of the SWNE $\frac{1}{4}$ and is on the west side of the county road.

H. RECOMMENDATIONS

The domestic rate is limited by the permit to .04 cfs.

2. Recommended Amendments

RE: PERMIT NO. 85-7342 - CLARENCE SEGO

Dear Mr. Sego:

The above referenced water right permit file for which you submitted proof of beneficial use in July 1988 recently came to my attention and requires that I write you to resolve an oversight on the part of the department in order to keep the permit in good standing.

The department issued the permit to you in 1983 authorizing the diversion and use of water from a well for domestic, stockwater and irrigation purposes. On July 25, 1988, you submitted the proof of beneficial use to the department as required. At that time the department should have reviewed the proof submittal in more detail and advised you that the proof had to be accompanied by a fifty dollar (\$50) license examination fee in order to be acceptable for the amount of 0.12 cfs shown on the proof. The department unfortunately did not timely advise you of this problem as we should have. Hence, at this late date I am advising you that you need to submit this fee to complete the requirements of the permit process.

Department records show that on June 9, 1988, you paid a \$53 to the department in connection with an adjudication claim. The \$53 fee submittal is represented by receipt no. C001243. This fee was a different fee than now required in connection with the proof submittal for permit no. 85-7342.

I apologize for the late notification of the fee submittal requirement, but the water right has not been injured by the department's oversight to timely advise you in this matter. Please submit the fee promptly. Also feel free to call me if you have questions.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

LAPSE NOTICE

RE: PERMIT NO. 85-07342

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated April 30, 1988.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this lapse notice or the permit will no longer be of any force of effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

PROOF DUE NOTICE

RE: Permit No. 85-7342

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
