RE: Number of Domestic Units

We originally proposed to issue the license on this right for only 3 homes. However, in correspondence received from Mrs. Lycan's attorney, he states that it should be issued for 5 homes.

In further reviewing the field exam, it's evident that the examiner found 4 homes in use (see drawing on front of field report - trailer, house & two apartments = 4 dwellings). Mr. MacGregor states that five outlets were in existence at the time of the examination and have been there for several years. I see no reason why the license should not be issued for the five homes, therefore, the license will be prepared with this information.

Re: Permit No. 85-07314

Dear Mr. Johnson:

Ellen Lycan of Grangeville, Idaho, has brought to me your letter dated August 8, 1990, together with the enclosed Water Right No. 85-07314.

Mrs. Lycan has several questions which concern her about the license proposed to be issued. As originally applied for, there was a request for domestic use for seven homes. The request was then subsequently reduced for five but in the proposed license, it only authorized domestic use for three homes. At the present time there are three buildings upon the property, however, one is an apartment and is occupied by two users. ~~Mrs. Lycan believes that the domestic use as a minimum must be for four users and she would feel that it would be appropriate for five users as she has already had hooked up outlets for five water users. These five points of use were all in existence when the examination was made by your office as they have been there for several years.~~ Accordingly, Mrs. Lycan would request that the proposed issuance of the water license be changed in Article 5 under Condition/Remarks to provide for domestic use for five users.

Dear Mrs. Lycan:

You were correct to assume that a \$50.00 exam fee is not required on the above-referenced permit. However, the examination is still a requirement and will be conducted in due course.

I hope this answers the questions you had concerning the examination. If you have any further questions, please contact me at this office.

Sincerely,

RE: Permit Number 85-7314 - Helen Lycan

Dear Mr. King:

Mrs. Lycan has received your letter of December 8, 1987. The letter states that a field examination will be conducted to examine her system. She understands that there is a \$50.00 fee for such an examination. No fee was sent with the letter of November 5, 1987, with the enclosure of Proof of Beneficial Use because we were of the understanding from the fee schedule that since the total rate and/or volume for which proof was submitted was less than 0.04, there would be no fee required. Could you please confirm this to Mrs. Lycan.

Also, she stated that a short time ago she received a telephone call from your office in which inquiry was made as to who the well digger was that dug the well for her husband and herself. At the time she could not remember, but she now informs me that it was DeTray and Adcock. If there is any further information we can give you, please contact us.

Thank you.

Very truly yours,

DEE, MacGREGOR & FALES

RE: Permit Number 85-7314

Dear Ms. Fleck:

Helen Lycan, the wife of Albert Lycan, whom you addressed your letter of October 31, 1987 to in the above entitled matter came to my office today and requested that I attempt to comply with the contents of your letter. Accordingly, you will find a Proof of Beneficial Use which she has completed, signed and which we have enclosed herein. No examination fee accompanies the proof because as we understand it from reading the instructions which you sent to Mrs. Lycan no fee is charged unless the cubic feet per second is in excess of 0.04. If we are not correct in this please inform us. In the meantime we trust that you will be able to process this application and issue and license for the permit which has previously been approved.

If there is anything further that we need to do please advise either Mrs. Lycan or myself.

Thank you.

Very truly yours,

DEE & MacGREGOR

PROOF DUE NOTICE

RE: Permit No. 85-7314

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager
