Dear Rev. Kelley:

Re: Permit No. 85-7295

Pursuant to your letter of March 4, 1983, I've reviewed the above-referenced water right permit to see what further action, if any, would need to be taken by you to fulfill the requirements of your permit.

Permit No. 85-7295 is in good standing. The next step is for a regional representative to contact you to conduct a field inspection of your water use. We cannot tell just when he will contact you, however, there is no deadline in which the inspection must be made. Later, after the examiner has made his recommendations for licensing, the department will notify you of his findings. If you do not concur with the findings, you will be given a period of time in which to contact the department; after which, a water right license will be issued.

Please note that the June 30, 1983 deadline of which you mention is the time in which unrecorded uses of water must be recorded with the department. Your water use is recorded by this permit.

If you have any further questions, please feel free to contact this office or our Northern Regional office in Coeur d'Alene.
