RE: Permit No. 85-7178

B. Edward Peterson
Route #2, Box 690
Kamiah, ID 83536

Dear Mr. Peterson:

Enclosed is a copy of your permit. The reason an Amendment of Permit was requested is because under Item 4 of the permit you indicated that the water was going to be used for domestic purposes. Under Idaho Water Law domestic use is defined as water used for in-house needs and irrigation of 1/2 acre or less. The Department's field examiner did not find any water under this permit being used for in-house purposes, but rather found the water being used on almost a full acre of ground. He recommended that the nature of use be changed from domestic to irrigation in recognition of your actual use of the water.

Provision of Section 42-211, Idaho Code allows the permit holder to change the nature of use by filing for an amendment of a permit, which is the form we had sent you and you returned. However, the filing fee for the amendment is \$20.00 which we still need to receive before we can process your water right.

I hope this reply answers all of your questions. If I can be of further service please let me know. We hope to hear from you as soon as possible so that we can complete this processing.

Sincerely,

JIM JOHNSON

RE: Permit No 85.7178

Idaho Department of Water Resources

Enlosed is "Application For Amendment Of A Permit", however I do not understand any amendment as there has been no change in my original application that I am aware of, at present my original application has been inadvertently misplaced so that I have no means at present for comparison. I paid a \$20.00 Fee on 9/28/78 when I applied for the permit, is the \$20.00 you requested is in addition to the fee I paid when filing? Any information that you may offer so that I may conclude the application will be greatly appreciated.

The maximum quantity diverted shall not exceed 1.2 acre feet per year.
