IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. **85-7146**

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

10 Remarks The Lewiston Orchards Irrigation District is organized under Title 43 of the Idaho Code and is located partly in the City limits of the City of Lewiston, Nez Perce County, State of Idaho. Its current source of water comes from the Craig Mountain area from established water rights including 1) Sweetwater Creek 1904, 2) Waha Lake 1915, 3) Soldiers Meadow Reservoir 1922, 4) Webb Creek 1924, 5) Captain John Creek 1934. Both, irrigation and domestic water service is provided by the District to the water users of the District. Because of the abnormally low snow accumulation, and the critically short supply of available water to the District, the Board of Directors for the District plan to develop ground water to provide an auxiliary supply for its domestic system. Estimated ground water development would be three (3) cubic feet per second.
The exact location of the proposed well has not been determined, but will be on District property and will be near the District's water treatment plant located in the SW 1/4 Section 17 TWP 35N.
The District is planning to finance this development under the emergency drought act of 1977. Under this act development and operation is to be completed no later than Nov. 30, 1977. Consequently prompt action on our application is respectfully requested.

Board of Directors
Lewiston Orchards Irrigation District
Lewiston, Idaho

We have examined the statement of financial condition of LEWISTON ORCHARDS IRRIGATION DISTRICT, at June 30, 1979 and 1978, the related statements of changes in unrestricted surplus, changes in reserves, earnings and changes in financial condition for the years then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying financial statements together with the notes to financial statements present fairly the assets, liabilities and unrestricted surplus of Lewiston Orchards Irrigation District at June 30, 1979, and 1978, and the results of its operations for the years then ended in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Lewiston Orchards Irrigation District

NOTES TO FINANCIAL STATEMENTS - June 30, 1979 and 1978

1. ACCOUNTING POLICIES

The District utilizes the enterprise method of accounting which reports the results of the District's operations under the accounting method most utilized by utilities. Other significant accounting policies utilized by the District are as follows:

a. Accounts receivable and revenue

The books of the District are maintained on the accrual basis of accounting except that revenue from the sale of water service is not recorded until billed on a quarterly cycle basis.

b. Supplies

Inventory of supplies on hand consist of pipe, fittings and chemicals. Inventory value was computed under the lower of cost or market using the first-in, first-out method.

c. Depreciation

Depreciation is computed using the straight-line method applied over the estimated useful life of the asset.

d. Reserves

Appropriations of unrestricted surplus to reserves are made at the time of actual segregation of assets held for special purposes. The reserves and their specific purpose are:

1. Reserve for repayment of long-term contract was established by Board of Directors action to accumulated monies from transfers from unrestricted surplus for the purpose of retiring the U.S. Bureau of Reclamation contract.
2. Reserve for Bond Interest and Redemption of Bond Fund was created under the provisions of the swimming pool bond indentures for the purpose of accumulating funds which are to be used for payment of interest and retirement of the swimming pool bonds.
3. Reserve for contingencies was established pursuant to the provisions of the contract with the U. S. Bureau of Reclamation to provide a contingent fund for major repairs or disasters.
4. Filtration Plant and Equipment Reserve was established by Board of Directors action to provide for an accumulation of monies to make needed improvements to the filter plant and the purchase of equipment.

7. EMPLOYEE RETIREMENT

On July 1, 1976, the District was admitted to membership in the "Public Employer Retirement System of Idaho". As required under the Idaho Code, the contributions for the employee is 4.5 percent of his monthly salary with the District contributing 7.5 percent of the total salary. The District's contribution is set by the Public Employee Retirement System of Idaho's board.

8. WATER RESOURCE DEVELOPMENT COSTS

The Water Resource Development Costs are costs incurred by the District for engineering services and the processing fee to the Bureau of Reclamation for the proposed Clearwater River Project.

9. DROUGHT RELIEF GRANT

On July 19, 1977, the District accepted an "Offer of Grant" from Economic Development Administration of the U. S. Department of Commerce under the Community Emergency Drought Relief Act of 1977 for a 50 percent sharing grant not to exceed \$338,301 of the total estimated project of \$676,602. The project will be the construction of a well to augment the water supply and administration of a water conservation campaign. The construction of the well was completed in September 1978. Final acceptance by the Economic Development Administration for costs incurred under the Grant was given on September 5, 1979.

10. CONTINGENCY

Lewiston Orchards Irrigation District employees are covered under the State of Idaho retirement plan. The plan requires that upon retirement from the District, the employee's unused sick leave accumulated since July 1, 1976, be converted to one-half the cash value and will be used to pay the employee's state maintained insurance program. The amount of this contingency has not been determined as of June 30, 1979 or 1978.

Our report of examination of the financial statements for the year ended June 30, 1979 and 1978, is presented on Page 2. The other financial information, as listed in the table of contents, was derived from the accounting records tested by us as part of the auditing procedures followed in our examination of the above-mentioned financial statements. In our opinion, this information is fairly presented in all material respects in relation to the financial statements taken as a whole; however, it is not necessary for a fair presentation of the financial position and results of operations of the Irrigation District.

Gentlemen:

We acknowledge receipt of your statement of completion of water development and use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination, however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office.

Very truly yours,

Gentlemen:

One of the conditions of approval of your water Permit No. 05-7146 was that evidence of the extent of development must be submitted to this office on or before July 1, 1979. (See last page of your approved permit). Enclosed is a post card which may be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use post card or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect within 60 days.

Sincerely,

Rita Fleck

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition should be less restrictive and provide more flexibility to you in the development of your water right system. The specifications related to the size and location of the access port will be available upon request from the Department, as soon as the Department's measuring equipment is obtained.

If you have questions regarding this matter, please contact this office or our regional offices.

Extension of Time

Dear Mr. Young:

Thank you for your notice dated April 28, 1978, requesting proof of beneficial use or a request for a time extension to complete the subject project. Request for a time extension to January 1, 1979, to prove beneficial use is hereby made.

The project was initiated on schedule and prosecuted diligently by the contractor. Extremely difficult drilling conditions were encountered, however, resulting in final test pumping of the well not being completed until April 26, 1978. As of this date we have received the "Potable Water Quality Report" prepared by the Department of Environmental and Community Services which indicates the water is suitable for domestic use.

It is now our intent to proceed with the project in the form of ordering the pump, completing construction work on the well site, and initiating construction of the transmission main. Preliminary estimates of equipment delivery time as well as that for pipe materials indicate that construction will not be completed until late this summer.

Considering the above stated conditions, as well as the fact that in excess of \$300,000 has been expended on the project to date, I feel the requested time extension is reasonable and justified. Your approval of the same would be sincerely appreciated.

Very truly yours,

Paul A. Chasco, Manager

Dear Mr. Haynes,

We have reviewed the application for water rights by Lewiston Orchards Irrigation District for their proposed new well.

It appears the chances for financial help in funding the new well are good and the water is definitely needed.

We recommend that the water rights be granted.

Sincerely,

Gentlemen:

We are returning your Application for Permit and your Check No. 92-196 in the amount of \$45, as we are in need of additional information before we can begin processing the application.

Item Nos. 3a, 4, 5, and 6 of the application form must be completed in full. We have completed Item Nos. 4, 5, and 6 and partially completed Item No. 3a. The location of the point of diversion must be specified by quarter-quarter section. If, after your plans are finalized, you find that the well is located in a different 40 acre tract than specified on the application, you may amend the permit to change the location. Please check all other items on the application to see that they are correct and make any appropriate changes.

We also require a description of the boundaries of the Lewiston Orchards Irrigation District and, if you have been issued one by the Public Utilities Commission, a copy of your Certificate of Convenience.

If there are any questions in this matter, please do not hesitate to contact us.
