Dear Mr. Gill:

The final stage of the permit process is the issuance of a License which is prima facie evidence of a Water Right. Before this license can be issued an examination of the system, while in operation, must be conducted. You may retain the services of a Registered Professional Engineer for this purpose or you may make an appointment with this office to have a representative of this department conduct the examination at your convenience. One of the conditions of approval of your water Permit No. 85-7145 was that evidence of the extent of development must be submitted to this office on or before July 1, 1979. (See last page of your approved permit). Enclosed is a post card which may be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use post card or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect within 60 days.

Sincerely,

Rita Fleck
