Re: 85-7128

Dear Mr. Estis:

After calculating your water usage for your present system, it is apparent that you can increase the discharge capacity. You are presently using 44 c.p.m. or 0.1 c.f.s. The combined permits you hold allow up to 0.32 c.f.s. to be appropriated. As proof of beneficial use does not have to be shown until September, 1981, it would be to your advantage to obtain a larger capacity pump before that time.

If you have any questions, please contact our office.
