Re: Permit 86-7107 (Kenneth F. and Elizabeth A. Nuhn)

Dear Mr. Nuhn:

In response to your recent letter in connection with the above water right permit, I have contacted the Department of Water Resources.

Department records show that on March 4, 1980, the permit was issued to you, authorizing the diversion of water from the Middle Fork Potlatch River for the irrigation of nine acres of land. During the department's field examination, conducted on July 15, 1985, to determine the extent of beneficial use developed, the examiner could not find a diversion system and determined that the land had been sold to another party. Consequently, the examiner recommended cancellation of the permit since he found no diversion and beneficial use being made of the water.

The department's March 10, 1988 letter was sent to you rather than to the new owner because a water right permit is personal property that is not appurtenant to the land until the requirements of the permit have been completed and a license of water right issued. The purpose of that letter was to give you the opportunity to provide any information you have concerning the development and use of water under the permit. If development and use can be documented, a license could be issued.

In order to develop a water right, the water must be diverted and applied to a beneficial use. The department advises that there is no known reason which would prevent the new owner from applying for a water right from the Potlatch River and completing the process to develop a water right.

Dear Mr. Kombol:

One of the conditions of approval of your water Permit No. 86-7027 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Kombol:

We are returning your application for permit for clarification of several items, and also your Check No. 92-1 in the amount of \$10. We have typed your application for your review.

From the map you have drawn on Page 3, we have determined that the location of your point of diversion is in the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 33, Township 37 North, Range 1 East in Clearwater County. Please check this location for accuracy.

Under Item 4, you have listed 0.1 cubic feet per second of water to be used for the irrigation of 1/10 of an acre. According to the Idaho Code, the maximum we can allow is 0.02 cubic feet per second per irrigated acre without a justification for more. Due to the small amount of land you will be irrigating, we have listed 0.02 c.f.s., which should adequately irrigate the land.

Please review all items on the application, making any corrections or additions you feel necessary. Sign the application at the bottom of Page 3 and return it to our office along with the required \$10 filing fee, and we shall begin its processing.

Please contact us if you have any questions.

Very truly yours,

Fred Eisenbarth
Northern District Manager
