Dear Tom;

In response to your letter of April 5, 1982, as to the issuance of a license of the Water right. You may conduct an examination any time now. So if you are coming down in this area sometime soon, please advise us a few days in advance to be sure we will have the system in operation so you can examine it. The date you come doesn't make too much difference, however the end of June or first part of July would probably be the best time.

Thank you.

Dear Mr. Rylaarsdam:

The final stage of the permit process is the issuance of a License which is prima facie evidence of a Water Right. Before this license can be issued an examination of the system while in operation must be conducted. You may retain the services of a Registered Professional Engineer for this purpose or you may make an appointment with this office to have a representative of this department conduct the examination at your convenience. There is no charge for the representative's services.

Since the system must be in operation during the examination, please contact this office at least two weeks in advance of the date you wish to have the examination conducted.
