Dear Mr. Hall:

One of the conditions of approval of your water Permit No. 85-7086 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Hall:

We are returning your application for permit for clarification of the amount of water requested and also the filing fee.

You have listed a quantity of 0.446 cubic feet per second for the purpose of irrigating 2.5 acres. This amount is equivalent to approximately 200 gallons per minute. The maximum allowable for irrigation purposes would be 0.02 c.f.s. per irrigated acre, unless a need for more can be justified. We have changed the total amount requested to 0.05 c.f.s., which is equivalent to 22 gallons per minute.

We have taken the opportunity of typing your application. Please review all items and sign at the bottom of Page 3. Return the form along with the \$10 filing fee and we shall begin its processing.

Feel free to contact us if you should have any questions.

Very truly yours,
