Dear Mr. Zenner,

RE: License No. 85-7082

Enclosed is a copy of the Water Right License issued on the above referenced Permit.

Please be advised that one of the conditions of your permit was that a measuring device be installed as part of your diversion works. That requirement has been waived with issuance of the enclosed license. However, in the event that water supply shortages become a problem installation of measuring devices may be required.

Dear Mr. Zenner:

We have a Northern Regional Office in Coeur d'Alene who could answer your questions concerning your measuring device. Their office is located on Government Way in Coeur d'Alene.

The proof affidavits should be completed if your projects are finished, even if you do not plan to irrigate until June 1, 1979. Our field examiner can schedule a field examination with you after that date so an accurate reading can be made.

If your projects are finished, please complete the enclosed proof of beneficial use affidavits and return them either to this office or to the Coeur d'Alene office upon your visit. However, if the work on your projects is not completed, the enclosed extension request should be filled out and mailed to this office.

If you have any questions, please contact us.

Culdesac, ID 83524

Dear Mr. Zenner:

One of the conditions of approval of your water Permit No. 85-7082 & 85-7083 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Dear Mr. Zenner:

Re: Permit Nos. 85-7082 and 85-7083

You recently requested the specifications for the access port that may be required on your Permit No. 85-7082. The measuring device equipment, however, has not been purchased and therefore the final design of the access port is not known.

You will be sent the specifications as soon as a measuring device is selected. Until these specifications are sent to you, you are free from installing any device unless you choose to install a measuring device for your own use.

Your Permit No. 85-7083 did not require a measuring device since it is only for domestic use. Proof of completion and beneficial use is due on both permits on May 1, 1979 and you will be notified of that due date 60 days prior to it. Enclosed, however, are two "proof" forms if you wish to make proof now.

Please let us know if you have any questions in this matter.

Sincerely,

BOBBY D. FLEENOR
Chief, Regional Offices Bureau

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition should be less restrictive and provide more flexibility to you in the development of your water right system. The specifications related to the size and location of the access port will be available upon request from the Department, as soon as the Department's measuring equipment is obtained.

If you have questions regarding this matter, please contact this office or our regional offices.

Sincerely,

L. Glen Saxton
