Mr. Harry S. Meador
Post Office Box #75
Stites, Idaho 83552

Dear Mr. Meador:

We are returning your application for permit and personal check #92-327, in the amount of \$10.00. We find in reviewing this application that there are several questions that need clarification before we could process it.

Item #2 should be clarified, indicating the South Fork of "_____", which is a tributary of the Clearwater River. The amount for irrigation under item #4 must be limited to one miners inch, or 0.02 cubic feet per second, per irrigated acre, unless some justification can be submitted for a more excessive quantity.

Item #7a should also be completed, listing the number of years required for the completion of your diversion system and application of the water to your proposed beneficial use. As you have indicated under item #4 that the water will also be used for domestic and stock watering purposes, then item #8a should be completed, indicating the place of use. This must also include a map on page three of your application, showing the 40 acre subdivision in which your point of diversion and place or places of use will incur. The application must also be signed in the exact manner as the name of applicant under item #1, page one.

If you should have any questions in making the necessary clarifications on your application, please do not hesitate to contact this Department.

Very truly yours,

Dorian Clay
