INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your portion of the water right: include the number of homes you acquired, number of acres irrigated with your portion of the right, if it is more than 1/2 acre, type and number of stock if your portion of the right includes stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

BEFORE THE DEPARTMENT OF WATER ADMINISTRATION
OF THE
STATE OF IDAHO

IN THE MATTER OF Application for)
Permit No. 85-7034 in the name of)
NELS LEROY SOLBERG)
_____)

MEMORANDUM DECISION
AND ORDER

On May 3, 1972, Nels Leroy Solberg applied to the Department of Water Administration for a permit to appropriate 0.18 cubic feet per second of water from a ground water source within the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 31, Twp. 30 N, Rge. 3 E, B.M., Idaho County, to be used for domestic, livestock and irrigation purposes.

Notice of the application was published in the Idaho County Free Press at Grangeville, Idaho, on May 24 and May 31, 1972. The Department received protests against the issuance of a permit from Clarence Keller, Dwyer Best, George Shira, Donald J. Soltman and George Sees.

A conference was held to consider the protests against said application on December 6, 1972, at Grangeville, Idaho. The applicant represented himself and protestants Clarence Keller, George Sees and Donald J. Soltman were present and represented themselves.

As a result of the above mentioned conference, the Department received withdrawal of protests from Clarence Keller, George Sees and Donald J. Soltman. The protestants Dwyer Best, George Shira, did not appear for the conference.

Having considered all information available to the Department of Water Administration the Director of the Department finds that the protests against approval of the above numbered application for permit submitted by Dwyer Best and George Shira should be set aside without prejudice; and,

THEREFORE, IT IS HEREBY ORDERED that Application for Permit No. 85-7034 be APPROVED subject to the following conditions:

1. That said permit be and is subject to all prior water rights.
2. That proof of construction of works and application of water to beneficial use shall be submitted to the Department of Water Administration on or before December 1, 1977.

Dated this 12 day of December, 1972.

RE: Water Right 85-07034

Dear Mr. & Mrs. Solberg:

The department acknowledges receipt of correspondence changing ownership of the above referenced water right to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

Sincerely,

Dear Mr. Solberg:

Enclosed please find an Order which DENIES extension of the proof of beneficial use of water on the above referenced permit.

You should be aware that Idaho is under a mandatory permit system, therefore, it will be necessary to file an application for permit at such time as you continue to develop this project.

In your letter to us requesting the extension of time, you mention that you are presently using the water for domestic and livestock purposes. You may file proof of beneficial use on that water that you are using. We are enclosing a proof of beneficial use form for that purpose.

If you have any questions, please contact us.

Dear Sir:

I would like to request a five year extension of time to complete my irrigation project. The reason for the request is that agriculture prices have not been high enough to justify the cost of the system during the last five years. I am presently using the well only for domestic use and water for approximately 35 farm livestock.

Very truly yours,

Dear Mr. Solberg:

One of the conditions of approval of your water Permit No. 85-7034 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

NOTICE OF CONFERENCE
AND/OR HEARING

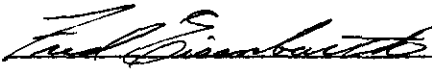

On May 3, 1972, Nels Leroy Solberg filed with the Department of Water Administration an application to appropriate the public waters of the State of Idaho. The Department received protests against approval of said application from Clarence Keller, George Shira, Donald J. Soltman, George Sees, and W. C. MacGregor, Jr., Attorney, acting in behalf of Dwyer Best.

The Department has set the matter of protest for conference and/or hearing for Wednesday, December 6, 1972, at 3:00 p.m., in Room 31 of the Idaho County Courthouse, Grangeville, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Administration. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or the protestant may allow the Department without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 15th day of November, 1972.

Dear Mr. Sees:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Dear Mr. Solberg:

We have enclosed copies of the protests filed against the issuance of a permit pursuant to your Application No. 85-7034 by W. C. MacGregor, Jr. for Dwyer Best and Clarence Keller. You should be aware that the following are the only items which, under Section 42-203 of the Idaho Code, we can consider at a hearing in approving or denying an application for permit:

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water, or an annual amount of 5 acre feet of water per acre of land, unless the applicant can show that more is required due to soil or climate conditions. (Section 42-202, I. C.).

The waters intended to be appropriated must be public water of the State of Idaho or if private waters, as defined under Section 42-212, I.C., the applicant must have authority from the owner of the land on which the water lies to divert the water.

I would like to go on record as being very much against the granting of application No. 85-7034 of Nels Salburg to pump water to water 60 acres of ground.

We are now on a well & when the City of Brangerville drilled a well above us a few years - 2 I believe they took half of our water & this is our only means of water for domestic & stock watering & we fear if he is granted this permit we will be completely out of water.

NOTICE OF PROTEST

COMES NOW, Dwyer Best, by and through his attorney of record, W. C. MacGregor, Jr., and does hereby protest the granting of any application by the Idaho Department of Water Administration to Nels Leroy Solberg as submitted in his application #85-7034 to appropriate 0.18 cubic feet per second of water from a ground water source by means of tanks within the following described area, to-wit:

Southeast Quarter of the Northeast Quarter (SE $\frac{1}{4}$ NE $\frac{1}{4}$),
Section Thirty-One (31), Township Thirty (30), North,
Range Three (3) E. B. M., Idaho County, Idaho.

Such Notice of Protest is given upon the basis that such appropriation would interfere with prior water rights and licences owned by said Dwyer Best, who has priority date of September, 1966, for an underground source of water for carrying capacity of 0.02 cubic feet per second from an underground water source. That protestant's water rights would be materially prejudiced if the application of Nels Leroy Solberg was granted to permit the appropriation of the amount of water as requested in such application.

Dear Mr. Sees:

The above reference Application For Permit file by Nels Leroy Solberg is to appropriate ground water for domestic, livestock, and irrigation purposes. If our department approves the permit, it will be subject to all prior water rights. Therefore, if your well has an earlier priority, then your right will be fulfilled first.

If you feel a protest is necessary to protect your water rights, the protest shall state the name and address of the protestant and shall be signed by him or his agent, and shall clearly set forth his objections to the approval of such application. Our department will accept the four reasons listed below for a protest:

1. That the well will reduce the quantity of water under existing water rights
2. That the water supply itself is insufficient for the purpose for which it is sought to be appropriated
3. That the application is not made in good faith and is made for delay or speculative purposes
4. That the applicant has not sufficient financial resources with which to complete the work involved

Please submit this formal protest as soon as possible. We will accept your letter of June 4, 1972 as the date of protest.

After we receive the protest both, you and Mr. Solberg, will be notified as to where and when the hearing will be held. If you should decide the protest is not necessary, please advise our department.

If you should have any further questions, please feel free to contact us.

Department of Water Administration

Dear Sirs:

Please file this letter as a protest to the granting of the following permit:

Application No. 85-7034, to Nels Leroy Solberg, 200 S. College, Grangeville, Idaho, for a permit to appropriate 0.18 cubic feet per second of water from a ground water source by means of tanks within the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 31, T. 30N, R. 3E, B.M., Idaho County to be used from Jan. 1 to Dec. 31 for domestic and stockwatering purposes; and from March 15 to Nov. 15 for the irrigation of 60 acres, all within the E $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 31, T. 30N, R. 3E, B.M.

Thank you for your consideration in the matter.

Sincerely,

Otis A. Wilson

RE: Application No: 85-7034

D. J. Soltman M.D.
W. 709 North St.
Grangeville, Idaho 83530

Dear Doctor Soltman:

The above reference Application For Permit file by Nels Leroy Solberg is to appropriate ground water for domestic, livestock, and irrigation purposes. If our department approves the permit, it will be subject to all prior water rights. Therefore, if your well has an earlier priority, then your right will be fulfilled first.

If you feel a protest is necessary to protect your water rights, the protest shall state the name and address of the protestant and shall be signed by him or his agent, and shall clearly set forth his objections to the approval of such application. Our department will accept the four reasons listed below for a protest:

1. That the well will reduce the quantity of water under existing water rights
2. That the water supply itself is insufficient for the purpose for which it is sought to be appropriated
3. That the application is not made in good faith and is made for delay or speculative purposes
4. That the applicant has not sufficient financial resources with which to complete the work involved

Please submit this formal protest as soon as possible. We will accept your letter of June 3, 1972 as the date of protest.

After we receive the protest both you and Mr. Solberg, will be notified as to where and when the hearing will be held. If you should decide the protest is not necessary, please advise our department.

If you should have any further questions, please feel free to contact us.

Sincerely,

FRED EISENARTH

Dear Sir:

I am writing in regard to the application of Nels Leroy Solberg for a permit to appropriate 0.18 cubic feet of water for irrigation of 60 acres. I have had a well below his well for several years which produces 25 gallons per minute. If the granting of this water right for the purpose of irrigating the 60 acres should jeopardize the output of my well I shall be opposed.

Very truly,

Donald J. Soltman

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid.

Dear Mr. Solberg:

We are returning your \$10.00 in the form of a money order #92-1 along with your application for permit. We have taken the liberty of typing out a new application form with some changes, such as relisting the irrigation acreage in item #8b, using the map in your original application as a reference.

We need a break-down of the amounts for each use in item #4. For irrigation, the suggested date for an irrigation season in your area is March 15 through November 15. I have penciled in the suggested break-down for water use and the dates. If they are acceptable, please ink over the pencil and fill in the amounts for each use. The suggested amount for domestic use for one family is 0.02 c.f.s.

We require a brief description of the proposed diverting works, such as stockwatering, tanks, ditches, headgates, etc.

In item #8a(4), the number of families to be provided with domestic water supply has to be filled in. Also, the map under item 11 will have to be drawn.

The signature has to be exactly the same as the name given in item #1.

If you have any questions, feel free to contact this office.

Dear Sirs;

In response to your letter of 28 April the following additional information is provided.

1. No
2. Sank into the ground

Having spent a major portion of one evening filling out your application, I became quite familiar with it and can't recall those two questions being on the form. I do believe the application could be made easier. Thank you for calling this oversight to my attention.

Dear Mr. Spears:

Enclosed is your Receipt No. 18094 in the amount of \$30.00 for the filing of your Application for Permit.

However, before we can process your application, additional information is needed. Please advise us of the following:

1. Do you have any other water rights which you use for this home?
2. Before the spring was developed, did it sink into the ground or flow into another body of water? If it flowed into another body of water, please supply us with the name of that body.

We will suspend the processing of your application until we hear from you. If no response is received by our office prior to May 28, 1981, your application may be disapproved and your \$30.00 filing fee forfeited.

If you have any questions, please contact me at this office.

Sincerely,
