Re: Permit No. 85-7033

Dr. Paul A. Eke, DDS
3509 - 12th Street
Lewiston, ID 83501

Dear Dr. Eke:

One of the conditions of approval of your water Permit No. 85-7033 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Application for Permit No. 85-7033

Dr. Paul L. Eke, DDS
3509 12th Street
Lewiston, Idaho 83501

Dear Dr. Eke:

During a review of your application for permit, a discrepancy has been noted as to the source of water supply.

You have listed points of diversion from both Jacks Creek and a spring running into Jacks Creek. The question is as to whether there are two (2) sources used in a common system, or whether they are two (2) different systems. If, in fact, they are not common systems, it will be necessary for you to file another application, thus giving you a separate application on each source. Your existing application can be used to represent one of the sources.

If your source is actually from the spring with a point of re-diversion from Jacks Creek, it will not be necessary to make another filing. You should, however, indicate the exact nature of your system under item #10, on the re-typed application form.

If we can be of any further assistance in this matter, please feel free to contact this Department.

Very truly yours,

James Booker
