Ms. Darlene Taylor, Clerk
City of Lapwai
Lapwai, Idaho 83540

Dear Ms. Taylor:

In answer to your letter of April 15, 1974, we have reviewed the above referenced permit file.

Our records indicate that the City submitted proof of beneficial use of water in December, 1972. However, the proof affidavit was not accepted and returned due to the fact that a measuring device had not been installed.

Since the measuring device requirement has been removed from the permit, the City should now re-submit proof of beneficial use. We have enclosed a form for your convenience.

Upon receipt of the completed proof affidavit, the Department will schedule a field examination of the project before issuing a water license under this permit.

Mr. A. Kenneth Dunn
Department of Water
Annex 2, Statehouse
Boise, Idaho 83707

Dear Mr. Dunn,

After talking to you at the meeting in Orofino last month I've done some research into the Water Right I was asking you about.

We have some estimates on the pump that we were told we have to install. The price range runs from \$895.00 to \$3375.00. These prices are subject to change at time of shipment from Tacoma, Washington or Pittsburgh, Pennsylvania. These prices do not include the freight charges.

We have a Permit No. 85-7020 from the Department of Reclamation which approved in 1968. The well was completed May 28, 1970. It was drilled by Uhlenkott Well Drilling, Fenn, Idaho 83631.

You mentioned it might be possible for the City of Lapwai to get an exemption from the limitation and condition in the permit. Namely to permanently install and maintain a measuring device of a type approved by the department as part of the diverting works. So, now in behalf of the City of Lapwai I'm requesting such an exemption.

Thank you for any help you can be to us on this matter.

Sincerely,

Darlene Taylor

Gentlemen:

Your September 13, letter concerning the measuring device requirement on your Permit No. 85-7020 has been received. We feel the measuring device requirement should remain a condition of your permit.

An extension of time, to complete your diversion work, could be requested which, if granted, would allow you opportunity to obtain the necessary funds.

Enclosed is an extension request form for your consideration. Since the proof of beneficial use is not due for about a year, we ask that you wait until about 60 days prior to that date, October 1, 1975, before submitting the extension request.

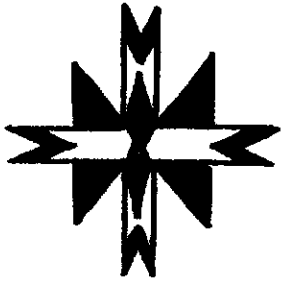

If you have any questions concerning this matter, please let us know.

Sincerely,

BOBBY D. FLEISOR
Assistant Director

Dear Mr. Fleenor:

We have all the papers on the agreement concerning the additional well.

We would like to know if there is any other way than installing the \$1500 meter on the pump to clear the water right. The city is very short of funds at this time so any information you can give us on this matter will be most appreciated.

Thank you.

Gentlemen:

We are in receipt of your affidavit submitted as proof of beneficial use for the above referenced permit. However, in reviewing that affidavit, it appears that you have not installed the measuring device as required by the condition of approval of your permit.

We cannot accept your proof unless a measuring device of a type approved by this Department has been installed. Therefore, we are herewith returning your proof affidavit and enclosures.

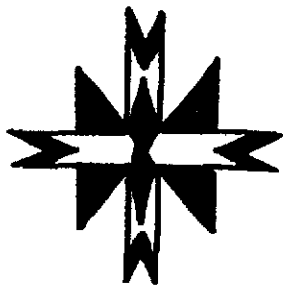

We have also enclosed a letter describing different types of measuring devices accepted by this Department. If you have any questions, please do not hesitate to contact us.

The Mayor of the City of Lapwai

Lapwai, Idaho 83540

Dear Sir:

We have been processing an application filed in your behalf for ground water appropriation. The application is numbered 85-7020, and was submitted by Mr. W. E. Thompson, P. E., of W. E. Thompson, and Associates, 200 Symons Building, Spokane, Washington. After the application had been processed, it was brought to our attention by the Attorney General's office, that in order for the application to be valid, it had to be signed by an elected official of the city. We are enclosing a copy of our July 28, 1970, correspondence, where we attempted to clarify this situation and get a proper signature, or verification that the originator of the application, W. E. Thompson, signing as City Engineer, is indeed, an elected official of the City of Lapwai, Idaho. We would request that either an elected official sign it, or that you state that Mr. W. E. Thompson is capable of obligating the city under this appropriation.

Please return the original application for final processing. Your assistance has been appreciated.

Very truly yours,

Donald W. McEldowney

Dear Mr. Thompson:

It has been brought to our attention that in order for the above referenced application to be valid, it must be signed by an elected official of the city or you must submit evidence of your authority to sign the application.

We are herewith returning the application for a proper signature. Or, if you so desire you may have the City of Lapwai submit the enclosed Power of Attorney form, giving you full authority to act in their behalf.

Your prompt attention to this matter is most appreciated and we apologize for this untimely delay in the processing of application 85-7020.

Gentlemen:

We have received an application for permit from W. E. Thompson filed in your behalf. Before we can process this application the proper filing fee must be submitted. The filing fee for this application is \$25.

Under state law a permit must be secured before the excavation of a well is to begin. However, since the water situation at Lapwai is critical you would be reasonably safe to begin construction of your well, as soon as we have received the correct fees. The processing of an application takes approximately six weeks.

Re: Application To Drill Well
City of Lapwai, Idaho.

Dear Mr. Bosch:

Your letter of April 16 to Attorney Owen L. Knowlton has been given to me for reply.

Enclosed please find executed Application For Permit To Appropriate the Public Waters of the State of Idaho.

In the Instruction I note that the "application for permit be submitted to the department before the well is drilled." Presumably the City could now proceed with the drilling pending approval of the application.

However, they might be reluctant to do this if there was any chance whatsoever of the application being rejected. The water situation at Lapwai is most critical and it is essential that drilling operations be commenced as soon as possible if a serious shortage this summer is to be avoided. Anything that you can do to expedite approval, formal or informal, of the application would be appreciated. In particular, please advise at once if there is any reason for delaying start of drilling operations.

Very truly yours,

W.E. Thompson, P.E.
