Re: Permit No. 85-7018

Dear Mr. Higginson:

I have tried both pumps and systems and both work fine.
When weather permits I will plant alfalfa.

I have a little more main line to install across the mouth
of a rocky canyon, but it will be completed in a short time.
My system can be inspected at any time at your convenience.

Sincerely,

Lynn H. Lasswell

Dear Mr. Lasswell:

One of the conditions of approval of your water Permit No. 85-7018 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. 85-7018

Dear Mr. Higginson:

Because of obligations which had to be met first on my place, and the expense of the project, my irrigation plans had to be delayed.

I plan to install a sprinkler system, and am presently looking for pumps, motors, and other equipment. This includes a flow meter. I am not sure how long it will take to receive and install all the equipment.

I now have adequate water and would like an extension until fall on the above permit, which would enable me to level and plant the land, and to give you proof of beneficial use.

Sincerely,
Lynn H. Lasswell
