Johnnie Nickel, Mayor
City of Kamiah

Dear Mr. Nickel:

In reviewing the Report of the Field Examiner, I find that some additional information is required before a Water License may be issued.

I need to determine the volume of water used annually by your city, both from the point of diversion specified on the above referenced permit and all other diversions used by the city. Please inform me as to the number of water users and the total number of people served. Also, would you please provide a listing of water used by any large water users, stating the annual use and the months used (a monthly breakdown if there is much variation). We must, also, have the amount used for irrigation of parks and public lands.

If recorded data is not available, estimates of the volume of water used each month will suffice. If estimates are submitted, please state your method of arriving at these estimates. Also, provide any facts and figures that would help to substantiate these estimates.

If you will provide this information, we shall continue to process your permit. If we can be of any assistance, please advise.

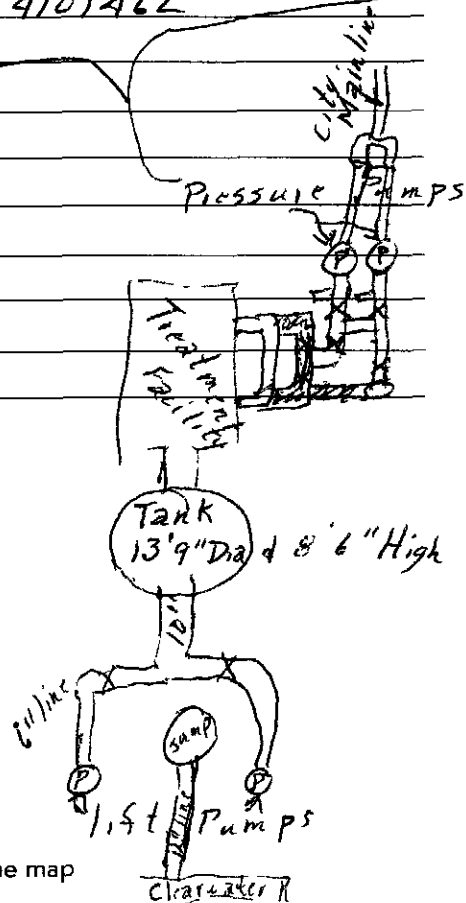

Very truly yours,

Gentlemen:

Reference is made to your communication of February 26, 1969 to the City of Kamiah concerning a discrepancy between the point of diversion as noted in the proof of beneficial use as compared with that in the original application and permit. This is to advise that the point of diversion as noted in the permit is correct. That is, the northeast quarter, southeast quarter, section 1, T. 33 N, R. 3 East, B.M.

Please correct the indicated discrepancy by changing the point of diversion indicated on the proof of beneficial use to the proper location shown on the permit, as noted above.
