DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that

Dear Claimant

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-240 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Yours truly,

Robert G. Harnes, P.E.
Regional Supervisor

Mr. Ronald J. Hayhurst

Dear Mr. Hayhurst:

After being unable to reach you by phone, I am returning your Claim and Check No. 92-357 in the amount of \$30.00 for some corrections.

The main problem arises over the amount of water appropriated. To protect your water right, it is necessary to specify a rate of diversion. Acre feet per annum is a storage amount and not a rate of diversion.

Cubic feet per second (CFS) and gallons per day (GPD) are rates of diversion and one of these units should be used. You can figure out your rate of diversion in a couple of different ways. First, you could find out how many gallons per minute your pump is rated at, and enter this amount in Item No. 3. You may also take the standard figure used by the Department of 0.02 CFS per acre of land, multiply this by the number of acres irrigated and enter this figure in Item No. 3.

If you have any questions, please contact me at this office.

Sincerely,

LAWRENCE D. BEARD
