Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Dear Mr. Knutson:

This is in response to your letter of October, 11, 1983, to advise you that the exceptions filed by you on behalf of Mrs. Bernice Lacey are a part of the record of the water right filings.

The purpose of having the exceptions made in affidavit form is so that equal weight may be given to both the claim itself and the exception.

As to whether the filings made by Mrs. Renfrow stand, it would be up to a court of law to determine if they were valid. Certainly the option of filing claims on her property are available to Mrs. Lacey, if she desires to do so.

If we can be of any further assistance, please don't hesitate to contact us.

Sincerely,

Dear Sir:

RE: Water Rights Claim #85-4441
#85-4442
#85-4443

I had filed an Affidavit on behalf of Mrs. Bernice Lacey, who owns the real property upon which certain water rights were filed some months ago. We had filed an Affidavit pursuant to the Idaho Code Section cited in your letter to us, dated September 1, 1983.

In the information received by you on September 23rd, you have quoted certain provisions of the Idaho Code, but no further mention is made as to whether or not the exceptions that we filed have been duly noted and made a part of the record of this particular case.

I am assuming that this is the situation, but I felt somewhat obligated to make further inquiry, because I can't honestly tell my client whether the exceptions we filed have become a part of the file or whether the original water rights claim that was filed is assumed to still stand.

I cannot honestly say that I have ever understood quite how the Department of Water Resources works in these water rights matters. Apparently anyone can file a claim to a water right on anybody's property on any water existing thereon and there really is no determination of the water right unless and until it is taken through the courts.

In that instance I have often wondered just what effect filing a claim for a water right or an application for a permit has in this state.

Would you please let me know if these exceptions that Mrs. Lacey filed have been noted and made a part of the record in this matter.

I assume that it would now be advisable for Mrs. Lacey to file water rights on her own land, but I still cannot explain to her whether the prior claims are going to take precedence or not, even though they were filed by someone who doesn't own the land and who has no legitimate claim to the water.

Thank you for any information you can give us in this matter.

Very truly yours,

RAPAICH & KNUTSON

Attention: Tom D. King

Dear Mr. King:

Pursuant to your letter of September 1st, I enclose three exceptions to the filing of water rights, claim numbers 85-4441, 85-4442, and 85-4443 on behalf of Bernice M. Lacey of Craigmont, Idaho.

Mrs. Lacey owns the land that these water rights are filed on and while the filings, I am sure, were intended for her benefit, she does not want anyone filing water rights on her land but herself.

Accordingly, she asked us to prepare the exceptions provided by statute, and we submit them herewith. We do not find any reference to a fee schedule for filing an exception, so if there is any cost, feel free to advise.

Very truly yours,

RAPAICH & KNUTSON
