STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that City of Lapwai (Name of Claimant)
P. O. Box 336 Lapwai, Idaho 83540 Telephone No. 843-2212
(Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) Early 1952

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Ground Water tributary to

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed: Municipal water system

(cfs, gpd, AFA)		(Domestic, Irrigation, Stock, Etc.)		(Both dates inclusive)	
				(Mo., Day)	(Mo., Day)
Quantity	<u>.368 cfs</u>	Use		Period of Use From <u>1/1</u>	To <u>12/31</u>
Quantity		Use		Period of Use From	To
Quantity		Use		Period of Use From	To
Quantity		Use		Period of Use From	To
Quantity		Use		Period of Use From	To

(4) .368 cfs TOTAL QUANTITY USED.
(cfs, gpd, AFA)

(5) A) Point of diversion. (Location of point where water is diverted from its source)
1/4 Sec 1/4, Sec 1/4, Twp 1/4 Rge. 1/4 B.M., County of
Additional points of diversion.

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. Well with pump(15 H. P.) and pipeline

(6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

T	R	SEC.	NE%				NW%				SW%				SE%				TOTAL
			NE%	NW%	SW%	SE%	NE%	NW%	SW%	SE%	NE%	NW%	SW%	SE%	NE%	NW%	SW%	SE%	

No. of acres

B) If water is used for other than irrigation, fully describe that use, being as specific as possible. Municipal water system

NOTE. Include here the type and number of stock watered.

(7) If you are claiming water as a member of an organization, list name of organization: City of Lapwai by Darlene Taylor Clerk-Treasurer

FILED

[illegible]

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

Mayor John M. Grosvenor,
Lapwai, Idaho.

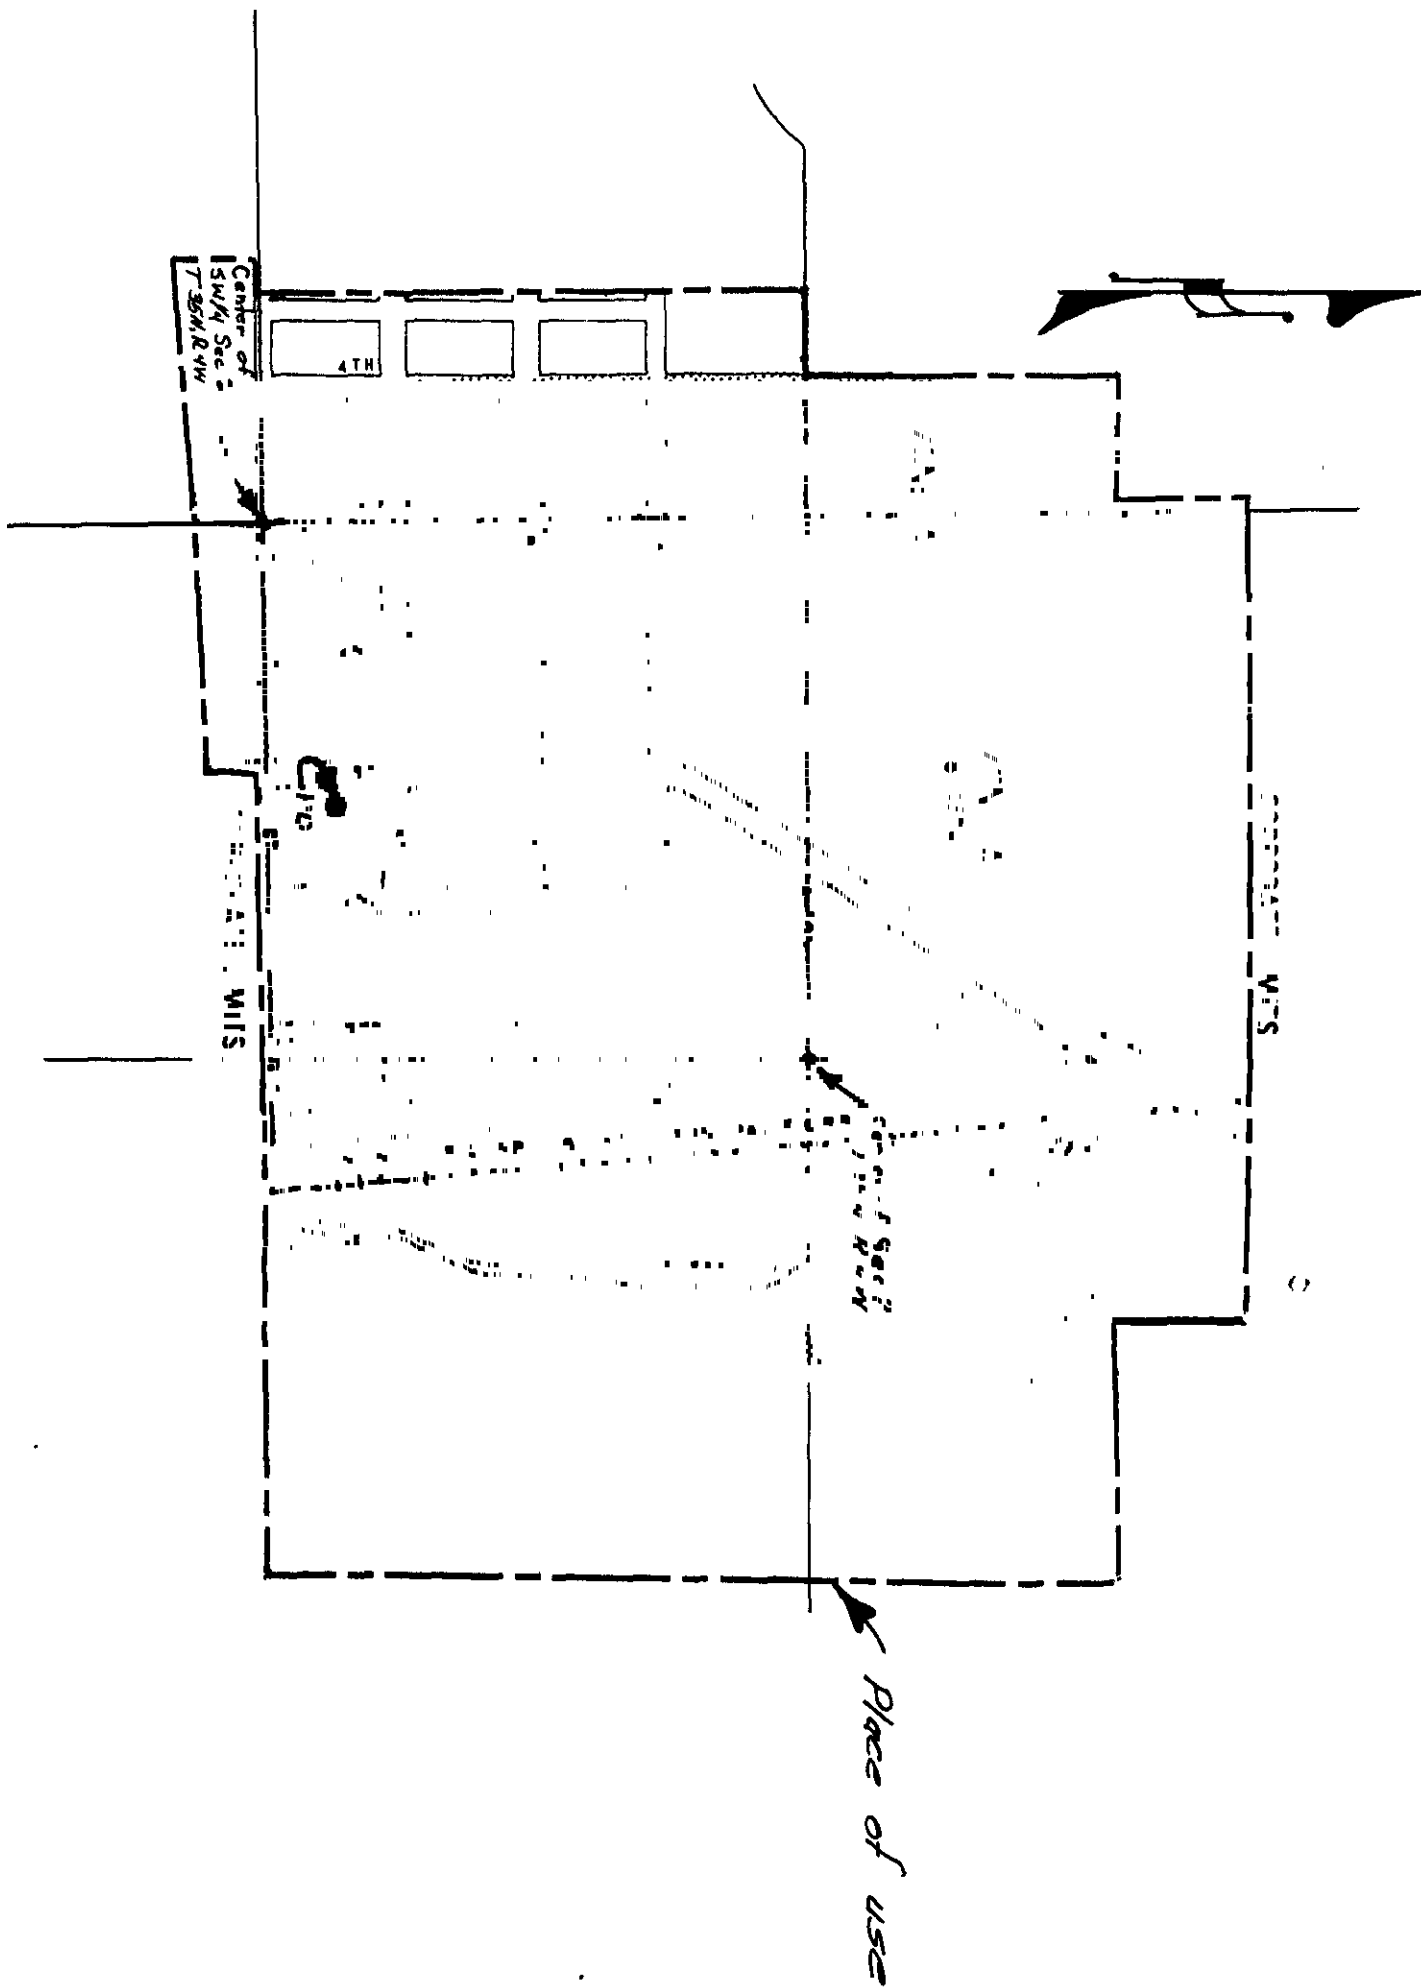

Dear Mayor Grosvenor:

Since talking with you on the phone last Saturday, I have secured some information relative to the existing pump in the City Hall. The files of the Dickerson Pump & Irrigation Company indicate that a 15 H.P. unit capable of producing 160 GPM was installed early in 1952. So far as we know the unit has been in and operating ever since and it is possible that wear has affected it to the point where the discharge has reduced substantially. Mr. Arthur Anderson, the Resident Inspector on the sewer project, did some checking on the pump a couple of years ago but I don't know if he came to any definite conclusions. He is out of town for a few days but I will check with him when he comes back. Dickerson's files indicate that the well had been tested with a drawdown of 80 feet (from static level of 18 feet) but the discharge at this drawdown was not recorded. The fact that 180 feet of column was installed and that it was assumed that the operating water level would be at 125 feet, would seem to indicate that the well was tested at less than 160 GPM (i.e. at 80 feet of drawdown). Actually if the pump is putting out 160 GPM, 24 hours a day, this would provide about 460 Gallons/Capita/Day which should be adequate unless there are a lot of leaks in the distribution system. My tentative conclusions are as follows:-

- (1) Due to wear, the pump may not be putting out 160 GPM
- (2) The well may not have a producing capacity of 160 GPM and the pump may be sucking air part of the time.

~~Without a measuring meter on the discharge~~

RE Claim No. 85-4132

Dear Claimant,

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Yours truly,

Robert G. Haynes, P.E.
Regional Supervisor
