RE: Claim to A Water Right No. 85-4082

Bryan and Patricia Cash
Box 186
Grangeville, Id 83830

Dear Mr. & Mrs. Cash,

The Department of Water Resources has completed the processing of your claim to a water right, and no further action is authorized under Section 42-225a and 42-225b, Idaho Code. Your claim will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of a claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim file, you may have that information or evidence added at any time. Please refer to your claim number when corresponding with our office.

We are enclosing, for your records, a copy of your claim. If you have any questions, or if we may be of any further assistance, please contact us.

Very truly yours,

ROBERT G. HAYNES
District Supervisor

Mr. and Mrs. Bryan Cash
Box 186
Grangeville, ID 83530

Dear Mr. and Mrs. Cash:

We are returning your two Claims to a Water Right and your Check No. 92-314 in the amount of \$20.

On your Claim to a Water Right for the well with a priority date of October, 1967, you indicate that there is irrigation use. A Claim is not acceptable on a water right for a well later than March 25, 1963, unless the use is domestic. "Domestic" is defined in the Idaho Code as consisting of household water with irrigation of up to one-half acre of land and stockwater. If the irrigation listed on the claim is for other than lawn and garden, a Claim to a Water Right is not the appropriate filing. If the irrigation is just for lawn and garden, please strike the reference to irrigation under Item 2. In addition, Item 3 lists the total amount of water as 35 cubic feet per second. I believe the "35" should be in the blank for "gallons per minute" rather than cubic feet per second. Please make that appropriate change. Item 6 lists the place of use as being within the NW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 24; however, from your map, it appears that the place of use is within the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of that section. Please make any necessary correction under this item.

On the second Claim to a Water Right for the pond, because there is no date of priority listed in Item 4 and because of the remark, "The pond would be for watering stock and possible irrigation," a question arises in my mind as to whether a Claim to a Water Right is the appropriate filing in this case. An "Application for Permit" on surface water must be filed to develop a water right if the use is developed after May 20, 1971. I have taken the liberty of transferring information from the claim to an Application for Permit form. If it is your intention to use the pond for irrigation, the number of acres to be irrigated must be listed under Item 8b of the application form. A filing fee of \$10 must accompany the Application for Permit, so the total fee for the Claim and the Application would still be \$20.

If you find it necessary to file the "Application for Permit" rather than the Claim to a Water Right, please make sure all items on the application form are correct and sign at the bottom of Page 3. Please return the forms to our office along with the filing fee and we shall begin their processing.

If there are any questions in this matter, feel free to contact us.
