in the cold weather, as it would freeze. We have a spring we use for drinking
water and household use, but it dries up in hot weather, so we have to haul our
water to use in the house for two months. The water we pump from the River is
not good to drink

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	May 18, 1871	amount:	0.8 c.f.s. or	acre feet
	June 1, 1901	amount:	0.4 c.f.s. or	acre feet
	Total claimed:		1.2 c.f.s. or	acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Water Administration, Statehouse, Annex 2, Boise, Idaho, 83707, is \$10.00.

Dear Mr. Tomlinson:

We are returning your claim to a water right and personal check #92-74 in the amount of \$10.00. We find in reviewing this claim that there are several questions that need clarification before we could begin its processing.

Please note that item #2 must list the point of diversion as to the nearest 40 acre subdivision that it would lie within. You have indicated the point of diversion to be in the S $\frac{1}{2}$ SW $\frac{1}{4}$, which would include two separate 40 acre subdivisions. Under item #5a, you should also list the number of acres that are irrigated in each 40 acre subdivision.

As soon as you have clarified these items and re-submitted the claim, we shall begin its processing.

Very truly yours,

Mr. Harry Tomlinson
Grangeville,

Dear Mr. Tomlinson:

We are returning your Claim to a Water Right form. The form is in proper order.

However, since both your name and that of your wife appear on line #1, page one of the form, both names must also appear as the notarized signatures at the bottom of page three.

We have taken the liberty of re-typing your claim form for reasons of clarification. Please have both signatures notarized on our re-typed form and return it to our office at your earliest convenience so that we may begin the processing.

Very truly yours,

Fred Eisenbarth
