Dear Mr. Hewett:

Returned herewith is your application for permit with attached check for \$5.00 filing fee.

Your note under 2, Quantity of water claimed: "This figure is for the additional acres surrounding this field to be irrigated" is not sufficient to describe the land. You must show acres in each 40-acre subdivision or in your case, in each lot.

I have shown Sec. 7 on the sketch sheet, showing lot numbers as shown on the plat of the U. S. Land survey.

You show a pipe across the Clearwater River, however, you do not show the location of your pump. It doesn't seem, from your sketch, that the point of diversion can be in Lot 3. The land appears to be 4 acres in Lot 5 and 9 acres in Lot 6 plus other lands not shown. Will the extra land include some of the flatter land in Lot 4?

If in doubt, show some acres in Lots 4, 5 and 6 to total the 20 acres.

I have changed the time under 12 to 5 years to allow completion of the works. You can make the proofs at any prior time you have all the land under irrigation.
