Re: Permit No. G-33317

Jerry E. Soderburg

Route #2, Box 25
Grangeville, Idaho

Dear Mr. Soderburg:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Gentlemen:

Mr. Jerry E. Soderburg has consulted me relative to submitting proof on his application for a water permit, application No. G41528, permit No. G33317.

I noticed upon examination of the Idaho Code that the sections dealing with proof have been materially changed, and therefore we would like to be advised whether or not your position is that we should make proof under Section 42-217 of the Idaho Code as amended by the 1967 session laws, or whether we should proceed under the old law. If under the new law, would you please furnish the undersigned with necessary forms in order to comply therewith.

Very truly yours,

Re: Orofino Golf & Country Club Assn., Inc.
Permit No. 33317

Gentlemen:

On behalf of Orofino Golf & Country Club Association, Inc., we hereby respectfully make application for an extension of time in which to make proof of beneficial use, which proof was to have been submitted not later than November 21, 1967.

The irrigation system has been completed, with the exception of the installation of the pump, which was delayed in shipment and has only recently been received. The Engineer for the Association has determined it would not be feasible to install the pump this late in the season; and it is now planned that no such installation will be made until after the high water next spring.

Because of the delay in receiving the pump, no water has, as yet, been conducted to the place of use, and it is therefore not possible to submit the proof of application to beneficial use at this time.

Very truly yours,

Warren F. Gardner
