Gentlemen:

Returned herewith is your application for permit for domestic water from a well. You will please note that the application is not signed. Also, you state the point of diversion as being in a 20' x 20' plot of ground. We only require the location of the well as to the actual point where the well is drilled. One well cannot be located in two 40 acre subdivisions therefore, which 40 acres is the well actually located. This information is not shown on the well drillers log.

Please note the necessary corrections and return promptly.

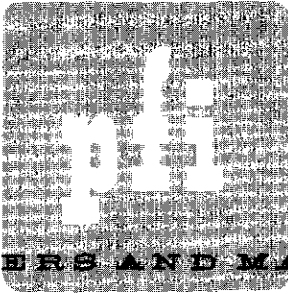

Very truly yours,
