Dear Mr. Higginson:

Enclosed are documents showing beneficial use of water under permit # G=32078. Please note that wells # 1 and # 5 have been dropped from the original listing under this permit and, although still existing, are not equipped with pumps and are not currently in use.

I hope the information is sufficient. It seems that over the years the well situation here at Lewiston has not been very stable.

Sincerely,

William B. Watson

Re: Permit No. G-32078

City of Lewiston
Lewiston,
Idaho

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney

Re: Permit No. G-32078

Gentlemen:

One of the conditions of the approval of your permit
G-32078 was that proof of application of the water to
beneficial use be submitted to this office on or before Sept. 25, 1969.

Enclosed is an affidavit form which must be used to submit
this proof. You may request an extension of time provided the
delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received
by this department on or before the above mentioned date, otherwise
the permit will lapse and be of no further force or effect.

Water-Sewer Superintendent
City of Lewiston

Dear Mr. Watson:

We are returning herein your application for permit and purchase order for \$100.00, as we discussed by telephone. I would suggest that you file a "claim to a water right" on those uses which are already established and for which you have no permit or license. An application for permit should be submitted for a diversion which is just being initiated. We are enclosing claim forms and affidavits for your use.

Pertaining to the questions that you ask in your letter, Permit G-32078 requires completion of works and beneficial use by September 25, 1969. You may submit proof at any time previous to that date. The following wells (your designation) are listed under Permit 32078:

well 1	Lot 1, Sec. 36, T. 36 N, R. 6 W
well 1A	Lot 1, Sec. 36, T. 36 N, R. 6 W
well 2	Lot 3, Sec. 32, T. 36 N, R. 5 W
well 4	Lot 6, Sec. 32, T. 36 N, R. 5 W
well 5	Lot 4, Sec. 30, T. 36 N, R. 5 W

In reference to Permit G-24618, under the Statutes there is no way we can increase the amount of a permit. If you intend to increase production from the well, you should probably apply for a new permit for the additional amount, if it is not covered under any other filing.

If you have any other questions, please contact this office.

Very truly yours,

C. Stephen Allred

Sir:

Enclosed is an application for permit to divert 20 c.f.s. of Clearwater River water for domestic and industrial use at Lewiston. A fee of \$100.00 is indicated and submitted herewith.

What must now be done to carry through on proofs for 4 wells under permit G - 32078?

We would also request an increase in pumpage under G - 24618 from 0.04 c.f.s. to 1.80 c.f.s. I do not think this well was included under G - 32078 above. Can it be added for a fee?

Dear Mr. Watson:

In checking our records we find that the City of Lewiston filed for water the first time from a Spring. This filing was made July 26, 1916 and was cancelled January 12, 1928. The next filing was for power out of the Clearwater River and was filed March 9, 1925. It was relinquished on July 9, 1925 when the city relinquished the power filing. We can find no record of a filing from the Clearwater for municipal use.

We have three filings on wells and they are as follows:

G-24350 - Licensed for 2.67 c.f.s. for municipal use. Date of priority, August 6, 1953.

G-28115 - Permit for 4 wells, 6.02 c.f.s. Filed August 21, 1959. The proofs have not been received and were due August 28, 1964. A pre-cancellation notice will be sent on this permit in the near future.

G-32078 - This permit was filed to get additional water from the same 4 wells as filed on G-28115. The proofs are due September 25, 1969.

The fact that Lewiston is a Charter City does not exempt them from the State laws. The city must apply and complete their filings in the same manner as an individual or corporation.

If we can be of further assistance in this matter please contact our Department.

Dear Mr. Tappan:

Will you please run a check and tell us what the official status is for City of Lewiston water rights? Water is both diverted from the Clearwater River and pumped from the wells, but our records are not complete on the legality of such use.

We think that at one time there was a water right in existence for diversion from the Clearwater River. If such permit is still valid shouldn't the amount of diversion be revised?

Does the fact that Lewiston is a Charter City have anything to do with the situation? Surely there is some reason why our own records on water rights are so sketchy. Your comments will be greatly appreciated.

R. H. Storch, P. E.
City Engineer
Lewiston, Idaho

Dear Mr. Storch:

We enclose Form for amending points of diversion shown on a permit.

The filing fee for 3.9 c.f.s. claimed on the application is \$5.75. Kindly read the instructions. There is also a fee of \$1.00 for recording an amendment to a permit and \$1.50 for the copy of Permit No. G-28115.

This offices does not have an invoice form.

Kindly remit the total fees of \$8.25 with the application to amend the points of diversion under Permit No. G-28115, and we will approve the application, record the amendment, and cancel our letter of June 5, 1964.
