NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 o'clock A.M., on the 8th day of July, 1957, at Lewiston, County of Nez Perce, State of Idaho, before Paul C. Keeton, a Notary Public, proof will be submitted of the completion of works for the diversion of .11 cubic feet per second of underground waters from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G25379 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and post office address of the person or corporation holding said permit are Wayne Keatts, Route 1, Box 35-B, Lewiston, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is .11 cubic feet per second.

3. The use to which said water has been applied is domestic purposes, stock watering and irrigation purposes, and the amount applied to beneficial use is .11 cubic feet per second.

4. The point of diversion of said water is Northeast quarter of the northwest quarter (NE $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 35, Township 35 North, Range 5 West Boise Meridian in Nez Perce County, Idaho.

5. The place where said water is used is approx. 15 acres in NE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 35, Township 35 North, Range 5 West of the Boise Meridian, in Nez Perce County, Idaho.

6. The date of priority which said user is prepared to establish is 26 January 1955.

Dear Mr. Keaton:

We received your letter of April 30th in regard to
above water rights.

Probably Mr. Keatts did not show you our letter to him
dated March 4, 1965.

The State Statutes provide that a permit is not necessary
for a domestic well which includes any use up to a maximum of 13,000
gallons per day or approximately 9 gallons per minute.

The new well was drilled to replace the old well for irri-
gation and would carry the old right. The old well was licensed for
0.08 c.f.s. or about 36 gallons per minute. If the proofs of completion
of works and beneficial use of the water are completed and inspection
showed no more water diverted, further license would not be issued and
we would force cancellation of Permit No. G-30392.

Possibly you would like to follow Idaho Code 42-222,
though we do not consider it necessary. Form is enclosed

Very truly yours,

RALPH W. THOMAS, Deputy

Dear Mr. Thomas:

Re: Licence No. G-25379
Permit No. G-30392

Mr. Wayne Keatts brought your letter dated March 15, 1965, concerning the above numbered subterranean water licence which has been issued by the state of Idaho to my office today.

The so-called "old well" is now only used for domestic water. Mr. Keatts does not want to abandon this well as it does supply sufficient water for household use and the watering of a small lawn which he has surrounding his home. For this reason he would not want to relinquish G-30392. It may be that if he intends to operate both wells, which he does, that it will be necessary to make additional filings with your office.

I am enclosing an affidavit as suggested in your letter which should take care of this matter unless additional filings are necessary on account of both wells being used. Thanking you for your courtesy in this matter, I remain

O
Dear Mr. Keatts:

Your letter of March 11 received, and evidently your new well does not produce more than you have on your license No. G-25379.

P
As the new well is also in the NE¹/₄ NW¹/₄, Sec. 35, T. 35 N., R. 5 W., B.M., the same as the old well, it will not be necessary to make a formal change in point of diversion. Your last permit shows the well 1300 south of the north line of the above described 40-acre tract.

Y
If the new well is actually in that 40-acre tract, send this office an affidavit signed before a Notary Public, describing the location of the new well and stating that the old well has been abandoned. We will place the affidavit in the file and mark the new location on the field report of investigation of works under G-25379.

Also complete the relinquishment of G-30392 and return with the affidavit.

If you intend to operate both wells, you should make the necessary proofs under G-30392.

Very truly yours,

RALPH W. THOMAS

Mr. Wayne T. Keatts
Route #1, Box 35 A
Lewiston, Idaho

Dear Mr. Keatts:

We received your letter of March 2nd in regard to your new well drilled after the well licensed for 0.08 c.f.s. failed to deliver the water.

Your permit No. G-30392 claims 0.3 c.f.s. to irrigate 15 acres in E $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 35, T. 35 N., R. 5 W. You note you are irrigating about 7 acres of land.

If your new well is producing over 0.08 c.f.s. or 36 gallons per minute, possibly you should complete the proof of completion of works and beneficial use of the water in order to get a license for the additional water developed.

This office believes that your licensed right will transfer from your original well to the new well and would not issue a new license with priority of February 23, 1962, except for the amount of water produced over the amount shown on Water License No. G-25379.

Kindly advise about amount of water you are pumping and proper forms will be sent to you.

Very truly yours,

Upon checking the file on the above numbered permit we find that there is no well log on your well. State Statutes require that a log on each water well in the state be filed in this department. It is the responsibility of the driller to see that logs are sent in.

Dear Mr. Keaton:

Our field engineer's report on the inspection of proof of completion of construction work and application of water to beneficial use under the terms of Permit No. G-25379 shows that the well is capable of conveying 4 miners inches (.08 c.f.s.) of water for irrigation of 10 acres.

Upon receipt of the statutory fees, totaling \$7.00, we will issue to Mr. Keatts, the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (two dollars) confirming the right with priority of January 20, 1955, to his use of .08 second foot of subterranean water, with the point of diversion in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 35, for irrigation of 10 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 35, Township 35 North, Range 5 West, B.M.

Dear Mr. Keatts:

Statutes requires a field inspection in connection with the proofs on Permit # G-25379 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on October 24th, 1957

_____.

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Dear Mr. Keatts:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Lewiston Morning Tribune, all submitted in proof of completion of works and beneficial use, on Permit No. G-25379.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Keeton:

We have your letter of February 27, 1957, stating that Mr. Wayne Keatts is prepared to make proof of Completion of Works and Beneficial Use on his Permit No. G-25379.

Before these proofs are made, the statutes require publication of a Notice once a week for four weeks in a county newspaper. This Notice should be made in duplicate on Form 36 enclosed, setting the time and place and naming the notary public before whom the proofs are to be made.

Both copies of Form 36 to be returned to this department together with Form 11 which is his authorization for us to have the Notice published at his expense in the designated county newspaper.

The proofs may be made at any place convenient for the Permit holder and his two witnesses but the date must be set far enough ahead to allow for four weeks publication.

We shall then send a copy of the Notice to the newspaper with instructions in regard to publishing and shall send you the forms of depositions to be executed by the Permit holder and his two disinterested witnesses in making these proofs.

Dear Mr. Culp:

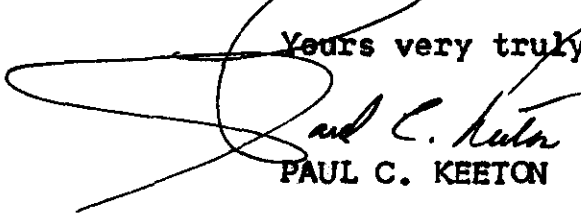

On January 26, 1955, you approved Application for Water Permit on behalf of Wayne Keatts. The number of Mr. Keatts' permit is G25379. The application is recorded in Book 90 at page 25379.

Mr. Keatts has completed the work which pertains to the appropriation of this water. I assisted him in preparing the original application for the permit, and tried on two occasions to see you personally in Boise, but did not find you in your office.

Mr. Keatts stopped in to see me today and asked me to write to you and ask you if there is anything further that must be done toward completing this water right. In other words, is it necessary for him to have a certificate, inspection of the works, or anything additional? If it necessary for him to place any kind of a legal notice in the newspaper regarding this permit?

Naturally, in this area attorneys do not have much to do with water problems, and I would therefore appreciate your suggestions and assistance in this matter at your earliest possible convenience.

Dear Mr. Keatts:

We return your application for Permit to Appropriate subterranean water from a well with the request that you sign it on the line indicated on the third page.

Also please indicate on the sketch map the exact location of the well.

Since the water is to be used on 15 acres, the application can be approved for 15 inches or 0.3 of a cubic foot per second.

The filing fee on this amount is \$5.00 so we return your check for \$8.25 with the request that you substitute for it one for \$5.00, made to the order of the State Department of Reclamation.

Very truly yours,

MARK R. KULP
