Re: Permit No. 16003

Mr. Geo. Ankney,
Sweetwater, Idaho.

Dear Sir:-

Referring to your letter of the 20th inst., in which you return your above numbered permit, would say that the permit was returned to you for your own keeping and files, as we have the record upon our books and the original is, therefore, always returned to the applicant.

There is nothing more for you to do as to proof in this office until May 27, 1926, the date set out for completion of works. Ninety days prior to said date, notice will be mailed you from this office advising you that your proof will be due upon said date and sending affidavit form for the proof required. If the proof is satisfactory, that is, if the works of diversion are completed and the water run through the ditch or ditches, a certificate of completion of works will be issued you. I would say, here, that the fee due on this proof, at the time said proof is made, will be \$5.00.

Then second proof, or proof of beneficial use of the water, upon which the final license is based, is also due May 27, 1926. Notice of this proof is required to be published for a period of four weeks, five publications, prior to the date proof is made. Blank notices for which will also be mailed you with the notice for proof of completion of works. Depositions of the holder and two witnesses are required to be filed for this proof, blanks for which will be sent to the notary public designated by the holder in his notice. All this, however, is not required until 1926.

Your permit is accordingly returned herewith.

Very truly yours,
W. G. SWENDSEN,
Commissioner of Reclamation.
