Messrs. Butler & Madden,
801-204 Carnegie Building,
Lewiston, Idaho.

Attention- Mr. Edward C. Butler.

Gentlemen:-

We are just in receipt of your letter of August 2nd, and in reply have to advise that our records show only two filings in good standing on Webb Creek, Nez Perce Co.; namely, Reservoir Permit No. 294, originally in the name of the Lewiston Valley Water Company, but afterwards assigned to the Lewiston Orchards Irrigation District; and Permit No. 15945 in the name of the Lewiston Orchards Irrigation District, the latter being a flow permit.

We can furnish you a certified copy of Permit R-294 for $1.50- that is the permit only, without the assignment or the certificate of completion of works--which we understand would be all that you would require.

Permit No. 15945 includes quite a long list of the lands to be irrigated. A certified copy of the permit alone, without this land list, would cost $1.50- but if the land list is included it will cost an additional $1.00.

If you will advise us just what copies you wish, we shall be glad to furnish them to you promptly.

Dexter C. Rich

Notary Public residing at Lewiston, Idaho.

The oldest of these permits, No. 877, originally acquired by Lafe Pence, transferred successively to H. L. Powers, F. D. Warner, Lewiston-Sweetwater Irrigation Company, Limited, and Lewiston-Sweetwater Irrigating Company, Limited, ripened into Certificate No. 877, dated October 22, 1909, confirming the completion of works. Later on, and on October 23rd, 1915, due proof of application to beneficial use of 87.8 cubic feet of water was made. All of this appears in and by the records of the office of the Department of Reclamation, to which reference is made in this proceeding as the basis thereof, and upon which to claim priorities for final completion of the original plan.

Lewiston-Sweetwater Irrigating Company, Limited, the corporation which produced the proof sufficient to secure the above mentioned certificates, was the developer of what has since been called Lewiston Orchards, a territory including within its borders 4391.66 acres of land, all susceptible of irrigation under the works proven as aforesaid.

In the year 1919 ~~and 1920~~, the properties of the Lewiston-Sweetwater Irrigating Company, Limited, were foreclosed, pursuant to a decree in foreclosure, rendered in the District Court of Nez Perce County, State of Idaho, and at the sale of such properties, held in May, ~~1920~~ 1919, the Lewiston Valley Water Company, an Oregon corporation, became the purchaser of all of such properties, including all of the above mentioned water rights.

From the Lewiston Valley Water Company, and by deed dated June 14, 1922 the applicant here in, Lewiston Orchards Irrigation District, these same properties were deeded to the applicant. A copy of this latter deed, which was recorded in the office of the Recorder of Nez Perce County, Idaho, on June 30, 1922, in Book 131 of Deeds at page 408, is hereto attached and made a part hereof.

All of the subsequent permits, Nos. 11331, 15566, R 294, and the permit herein concerned, No. 15945, were procured and made in extension of, in addition to and in completion of the original plan or irrigation as begun in the proceedings which terminated in the above certificates both numbered 877. The lands irrigated in each case are the same, the 4391.66 acres mentioned above.

When the present applicant, Lewiston Orchards Irrigation District, purchased its properties, as above set forth, the addition known as Permit No. 11331, was already in operation. As the water procured from the original source, No. 877 and No. 11331, was insufficient the purchase price, $350,000, included two additional additions or betterments, known as No. R 294 and 15945, and by separate agreement with the contractor, No. 15566 was added. These five permits, 877, 11331, 15566, 15945 and R 294, at present comprise one general, complete and operating water system, supplying annually 1.5 acre feet per acre for the land originally selected for beneficial application, the 4391.66 acres, originally known as Lewiston Orchards, and now incorporated under the irrigation laws of the State of Idaho as Lewiston Orchards Irrigation District. With the additions noted above this complete plant or works has been in full and successful operation for one entire irrigation season, the season of 1923.

Re: Application No. 22649

Mr. D. S. Wallace,
Mgr., Lewiston Orchards Irrigation Dist.,
Lewiston, Idaho

Dear Mr. Wallace:

Reference is made to your recent application for use permit to convey to your district the right to the use of Webb Creek, for the purpose of carrying stored water from the Soldier's Meadows Reservoir to the point of diversion from the creek.

At first I was of the opinion that we could pass the application to permit in its present form, but upon proceeding to record this permit, in paragraph 14 we are confronted with the dilemma of how to show the irrigable acreage in each forty-acre legal subdividion. in which the district is contained.

I attempted to make up this detailed information from the original license which was issued under your first permit No. 877, but I note that there have been certain changes in the irrigated area now in the district; for instance, Sec. 13, Twp. 35 N. Rge 5 West, shows that water was dedicated to 478.4 acres, whereas the total in your new application for permit for this particular section is only 464.35 acres.

It is, therefore, necessary to ask you to supply the irrigable acreage in each forty-acre subdivision, the totals of which will make up the amount shown in your total column for each section. In a number of cases this total will agree with the original figures in license No. 877 but in other cases where changes have been made in the district's irrigated acreage, it is impossible for us to adjust these differences and at the same pretest you in the exact lands to which you expect to have the water under this permit dedicated.

If you will supply this detailed information in the application, we will place same on the map which accompanied it.

It is quite essential that this information be given in connection with all permits, hence our request to you to comply with what might ordinarily be considered an unconsequental detail.

The application is enclosed herewith for the information herein requested.

Very truly yours,
