DEPARTMENT OF WATER RESOURCES

RECEIVED

PROOF OF BENEFICIAL USE

MAR 01 2001

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. 29-08243 Telephone No. 208 234 2305

2. Name of Permit Holder(s): Christian Vort

3. Mailing Address: 8435 N Parks Rd
City Pocatello State Id Zip 83201

4. Source of Water: South Fork Pocatello Creek If **GROUNDWATER** (well), Date Drilled: mo. _____ / yr. _____

Well Driller: _____ Drilling Permit Number: _____ - _____ - _____ - _____

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____

Irrigation (No. of acres): _____ Other: Recreational Storage

6. Total rate of diversion and/or volume for which proof is submitted: _____ cfs OR 0.4 acre-feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?

Yes ☒ or No ☐

Has the measuring device been installed?

Yes ☐ or No ☒

8. Fee Enclosed: \$ 50⁰⁰ (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Christian Vort Telephone Number: 208 234 2305

Address: SAME

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: _____
(include your title, if on behalf of company or organization)

Date: 2/23/01

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **February 01, 2002**.
2. Subject to all prior water rights.
3. Use of water under this water right will be regulated by the watermaster of State Water District No. 29A.
4. Prior to diversion of water under this right, the right holder shall install a lockable device, subject to the approval of the Department, in a manner that will provide the watermaster suitable control of the diversion.
5. The applicant shall install and maintain a fishway passage of a sufficient kind and capacity to accomodate seasonal movements of fish up and down the stream. The applicant shall notify the department when the passage has been completed so that its existence and acceptability can be confirmed and documented by department personnel.
6. The right holder shall install/maintain permanent measuring devices in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir can be measured.
7. Recreation storage is for a pond.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 15th day of February, 2001.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 29-08243

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

According to your water right permit, conditions of approval nos. 3, 4 and 6, you are required to have the Watermaster of State Water District No. 29A regulate this water right, by the installation and maintenance of a measuring device and lockable controlling works acceptable to the Department as part of the inflow and outflow of your pond.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. Therefore, you may wish to install the measuring device and controlling works before the department conducts the field examination.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

Please review your permit and call me if you have any questions regarding those conditions at (208)327-7953. If you have questions concerning the field examination, please contact the Western Regional Office of the department in Boise at (208) 334-2190.

Sincerely,

Deborah J. Gibson MICROFILMED

RE: Permit No. 29-8243

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed a least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
MAR 05 2001

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

To: File 29-08243

From: Sharla

Date: February 9, 2001

Re: Fish Passage

In a phone conversation with Skip at Eastern on this date, he explained to me that the applicant's pond is already existing. It is on-stream and is not within a FEMA flood plain area (see Erv Ballou's e-mail dated 9/6/2000). Skip and another regional office employee have visited the applicant's property verifying it's existence and size. They informed the applicant that Fish and Game would require a fish passage be constructed and that we would condition the permit accordingly. Skip suggested the condition include language requiring the applicant to notify the department when the fish passage has been constructed so that it can be confirmed by department personnel or perhaps the watermaster.

RE: Water Right Application #29-08243

Dear Harold:

We have reviewed the above application, to store 0.4 acre feet of water in a small recreational pond in the South Fork of Pocatello Creek. It is our understanding from the application that the pond has been in existence since 1979, but that the recreational storage right has not yet been obtained.

Yellowstone cutthroat trout and other native fish species likely migrated throughout Pocatello Creek and tributaries before land use practices slowly diminished habitat quality and eliminated connectivity in many locations. Pocatello Creek is currently listed on the State of Idaho 303 (d) list of water quality impaired streams. Yellowstone cutthroat trout have recently been petitioned to be listed under the Endangered Species Act. Although the current status of Yellowstone cutthroat trout in Pocatello Creek is precarious at best, the drainage certainly has some long-term restoration potential, particularly if minimum flows could be maintained in the stream. A visual check of the South Fork on September 19, 2000 indicated that much of the drainage is nearly dry. Instream and riparian habitats have been significantly altered. To our knowledge, the South Fork of Pocatello Creek should support a permanent, year-round flow of water. What is the status of existing water appropriations in the South Fork? This information should be compiled before granting a new water right.

Idaho Statute 36-906(b) states that no person shall construct or maintain a dam or other obstruction that restricts the free and uninterrupted passage of fish in any stream in the state without a proper fishway therein. Such fishway shall be installed and maintained at the owners expense and shall be of a sufficient kind and capacity as to accommodate seasonal movements of fish up and down the stream.

MICROFILMED

MAR 05 2001

Leaving Idaho's Wildlife Legacy Better Than We Found It

Even though the stream has been significantly degraded by local land use practices, and the existence of fish is questionable, a provision for the development of a functional fishway should be included as a condition in this water right application. In the future, we hope to work with the Portneuf River Watershed Council and other local entities to improve conditions in Pocatello Creek and other tributaries of the Portneuf River.

If the water right is approved, the applicant will need to obtain a fish stocking permit from the Department of Fish and Game. Because the pond has already been developed directly in the stream channel, fish stocking options will likely be limited.

Thank you for the opportunity to review this application. Please contact Jerome Hansen of this office (203-232-4703) if we can provide additional information or answer questions.

Sincerely,

Dexter R. Pitman
Southeast Regional Supervisor
