E. NARRATIVE/REMARKS/COMMENTS

Spring water comes into small building (spring house) by way of a 1" pvc pipe. Owner, Scott Tyson, didn't know where the collection box was. He said it is underground and the man he bought the property from didn't know where it was.

From the spring house, the water line forms a T. One branch is a by pass / overflow, the other leads to a 500 gallon collection tank just north of the spring house. From there, it is gravity fed down to the house.

RE: PERMIT NO. 29-08120

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.
