RE: Licensing of application for permit 29-08045

Dear Kim Solum:

You are listed as the contact person for the above numbered application for permit. A licensing field exam must be completed to insure that your water use is recorded correctly. You will need to contact this office with a daytime phone number (8:00 A.M. - 5:00 P.M.) so the examiner can contact you to arrange a date and time for completing the exam.

From the information gathered during the examination, a recommendation will be forwarded to Boise for the final stages of licensing. Without the exam your permit cannot be recommended for licensing.

Your prompt response will be appreciated. We look forward to helping you in completing the licensing process.

Sincerely,

Steve Mueller

PROOF DUE NOTICE

RE: PERMIT NO. 29-08045

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1992.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 29-08045

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well

so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

RE: DOMESTIC USE

DATE: 27-FEB-1991

=====

The original application has at least 2 separate authors identified. The first is the applicant's entries in black ball point pen, and the second is changes made by Keith Wilson per telecon with applicant in black uni-ball ink. Both the applicant's original and Keith's changes identify Domestic use in items #6a, 8d and 9. However, it was not identified in item #4. As both the original application and changes made were prior to advertising and domestic use in item #4 was inadvertantly left out, since domestic use is exempt from required filing, and because it's inclusion does not increase the total quantity to be appropriated, it has been added to the application without requiring readvertisement. We believe that this was the original intent of the applicant and left off through error.

RE: Application No. 29-8045

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in Idaho State Journal on JANUARY 17 & 24, 1991. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
