

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 29-07987

Priority: April 20, 1990

Maximum Diversion Rate:

0.04 CFS

Maximum Diversion Volume:

1.2 AF

This is to certify, that CHARLES M DICKSON

2270 S GRANT

POCATELLO ID 83204

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated April 20, 1990; and has submitted Proof of Beneficial Use on August 2, 1991. An examination indicates that the works have a diversion capacity of 0.040 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.04 CFS	1.2 AF

LOCATION OF POINT(S) OF DIVERSION: SWNW , Sec. 1, Township 07S, Range 34E
BANNOCK County

PLACE OF USE: DOMESTIC

TWN RGE SEC

07S 34E 1

SWNW

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
6. Domestic use is for 1 home.

To appropriate the public waters of the State of Idaho

1. Name of applicant Charles M. Dickson Phone (208) 232-3990
Post office address 2270 South Grant Pocatello, Idaho 83204

2. Source of water supply ground water which is a tributary of N/A

3. Location of point of diversion is NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of NW $\frac{1}{4}$, Govt. Lot _____
Sec. 1 Township 7 South Range 34 East B.M. BANNOCK County; additional
points of diversion if any: _____

4. Water will be used for the following purposes:

Amount .05 for irrigation purposes from April 1 to Nov 1 (both dates inclusive)
(cfs or acre-feet per annum)

Amount .01 for domestic purposes from Jan. 1 to Dec. 31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) .06 cfs and/or (b) _____
cubic feet per second acre feet per annum

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. 3/4 h.p. submersed pump, domestic supply
piping ($\frac{1}{2}$ " pipe), irrigation supply piping and hydrants (4--1" supply piping)

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
_____ to _____ inclusive.

① Existing (drilled 1988) Existing
c. Proposed well diameter is ≈ 8 " inches; proposed depth of well is 80' feet.

② d. Is ground water with a temperature of greater than 90°F being sought? NO

7. Time required for the completion of the works and application of the water to the proposed beneficial use is

① 1 year years (minimum 1 year).

① Taken from Item 12, remarks
② from knowledge of the area, DMD
Geothermal does not exist in this area.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 29-07987

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Karen L. Gustafson

Re: Permit No. 29-07987

Dear Mr Dickson:

Thank you once again for your prompt response to my earlier correspondence. I am glad that we have finally been able to answer all the questions associated with this permit and continue with the licensing process.

I have made the necessary changes to the proof of beneficial use as you requested. I have enclosed a copy for your convenience. Because you are using the well for domestic purposes only and are diverting 0.04 cfs, you have indeed overpaid the license examination fee. I have begun the process to refund the \$50 license exam fee. The process takes between two and four weeks and will arrive under separate cover.

Should you ever decide, at some time in the future, that you want to utilize the well for irrigation purposes, you may still do so. You will need to contact our regional office and apply for another permit for the additional acres that you wish to irrigate. I should inform you, however, that there is currently a moratorium in place for most new permits because of the drought situation. The Department anticipates lifting the moratorium when drought conditions have improved.

I will analyze and acknowledge the proof of beneficial use sometime this week. You should received an acknowledgement letter shortly thereafter. A copy of that letter will be forwarded to our Eastern Regional Office. They, in turn, will contact you so that arrangements can be made to conduct the field examination.

MICROFILMED

APR 07 1993

Mr. Dickson, I would once again like to apologize for any misinformation, and for the confusion and delay in settling this matter. Had someone from this Department asked the right questions, this matter could have been settled years ago. I appreciate your patience and promptness since I took over your file. I have enclosed my card should you ever have need to contact the Department again.

In the mean time, if you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 29-07987

Dear Ms. Gustafson:

Thank you for your prompt reply to my last letter concerning this issue. I do appreciate that, and I do wish to resolve this matter.

As I indicated in my last letter, I did not proceed with my anticipated expansion plans. And it appears at this juncture that I will not do so in the foreseeable future. As I indicated, I had filed for water permits that would have allowed for such expanded irrigation needs. But, as you have now made clear to me, I should file for what I am actually using at this time.

As I stated in my last letter, I am currently using what would qualify as domestic use only. Please make whatever changes are necessary for the permit to reflect this.

I would like to know, however, if this will prevent me from possible future expanded irrigation, with regards to the diversion of water from my well. I don't currently anticipate this need, but I would like to know that I still have that option.

Also, I believe that I may have overpaid necessary fees for a domestic use permit. Could you please determine same, and refund any overpayment.

I apologize for any problems or inconvenience I may have caused your department in this matter.

Thank you.

Sincerely,

Charles M. Dickson

Re: Permit No. 29-07987

Dear Mr. Dickson:

Thank you for your prompt reply to my letter of January 4, 1993. I can understand your frustration with the length of time it has taken to complete this water right permitting process. Once again, I would like to apologize for this delay and any misinformation you may have been given.

The Department did receive the proof of beneficial use and \$50 license exam fee filed on this permit. It was never approved or disapproved because of the unsettled dispute concerning the drilling permit fee.

You indicate in your letter that you filed the water permit and proof of beneficial use based on future irrigation needs. Please note the paragraph at the top of the proof of beneficial (copy enclosed) use that reads in part . . . "that the permit holder has completed all development that will occur under this permit . . ." You cannot file proof for "future irrigation needs". The information you supply on the proof is to notify the Department of the work completed and the amount of water you are actually diverting. Therefore, the Department assumes that you are irrigating 2 acres and diverting 0.06 cfs unless you notify us otherwise, or the Department makes that determination during the field examination.

When you filed the proof of beneficial use, you indicated that you were irrigating 2 acres with a rate of flow of 0.06 cfs. As I explained before, this does NOT constitute domestic use. In order to be considered domestic use, you must irrigate 1/2 acre or less and divert 0.04 cfs or less. I have enclosed a drilling permit information sheet which clearly explains the definition of domestic use.

APR 07 1993

Mr. Dickson, if you are in fact irrigating 1/2 acre or less and diverting 0.04 cfs or less, then you are correct. You do not need to submit an additional \$90 for a non-domestic drilling permit. I will, however, need to make adjustments on the proof of beneficial use. I will adjust the proof to allow irrigation of 1/2 acre (not 2 acres as is now indicated), and to allow diversion of 0.04 cfs (not 0.06 cfs as is now indicated). Please understand that if those adjustments are made, that is all that will be allowed when the license is issued. Any diversions greater than allowed on the permit/license would be considered illegal diversions.

Therefore, please let me know if you wish to possess a domestic water right and drilling permit (irrigate 1/2 acre or less and divert 0.04 cfs). In which case, I will make adjustments to the proof of beneficial use. Or, if you wish to possess a non-domestic water right and drilling permit (irrigate 2 acres and divert 0.06 cfs), please submit the additional \$90 to upgrade your drilling permit.

Please respond to this correspondence within 30 days of the date of this mailing. I look forward to hearing from you. In the mean time, if you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: Water Right Permit No. 29-07987
Drilling Permit No. 29-88-E-034

Dear Ms. Gustafson:

Please reference your letter dated January 26th, 1993, which I recently received, concerning the above permits...

This matter has apparently confounded the Idaho Department of Water Resources for nearly five years. Please let me try to clarify matters, if that is possible.

I applied for a water well drilling permit in June of 1988. The permit was approved as of June 21st of that year; and the Eastern Regional Manager-- Mr. Ronald Carlson--acknowledged the approval and receipt of the application and \$10.00 fee (receipt #E000463).

In April of 1990, I then further applied for a corresponding water right, including the required \$30.00 fee. The application and fee were received and acknowledged on April 20th, 1990, by Mr. Harold Jones, Water Rights Supervisor (receipt #E013455). The approved permit was issued on August 20th, 1990 by Mr. Gary Spackman.

I then further provided proof of beneficial use, along with the required examination fee, as instructed by the terms of the approved water permit.

On August 9th, 1991, I was sent a letter by Ms. Rita Fleck, Secretary/Records Manager at that time. Ms. Fleck indicated that I must submit an additional \$90.00 in fees. I replied to Ms. Fleck's letter (copy enclosed) on August 18th, explaining my situation. I received no further correspondence on this matter, until your letter of January 26th.

As I indicated to Ms. Fleck, the original water permit was filed based on a desire to provide for future irrigation needs, if desired. I was told by Department representatives that the domestic use permit would be sufficient for my needs; but I filed for the increased flow anyway, and paid for same through the examination fee schedule of \$50.00. I never received acknowledgement of same, nor any indication of approval or disapproval. I did not acquire any additional acreage, and I am currently utilizing my water well for domestic use.

I do not feel that I am required to pay an additional \$90.00 in drilling fees under the circumstances. Please respond at your earliest convenience.

Re: Permit No. 29-07987
Drilling Permit No. 29-88-E-034

Please reference your letter dated August 9, 1991, concerning the above-mentioned well and water right application....

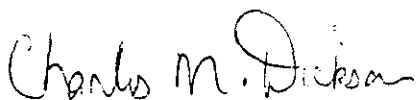

When the matter of Idaho water right adjudication began, I spoke with a representative of the Department of Water Resources, Idaho Falls office, and explained my situation and my intentions. This being that I had drilled a replacement domestic well on my property, and then had later added underground piping to permit me to sprinkle irrigate approximately one and one-quarter acres of pasture and lawn. I also informed this representative that I intended to purchase additional adjoining property of approximately one acre, in the foreseeable future, which would require irrigation as well. The individual informed me that I simply needed to apply for a domestic use well, as specified in the drilling permit; and that if I wished, I could apply for additional flow use to cover any future expanded irrigation needs, but that the domestic use permit would most likely be sufficient for my needs.

I made application, allowing for the possible expanded irrigation needs, enclosing the required fee. I received reply, informing me that the application had been received and approved, subject to receipt of documentation of 'proof of beneficial use', and the accompanying fees. I recently submitted same, which brings us up to your last letter.

Frankly, I am a bit confused, and not a little bit irritated. I have made a good faith effort to resolve this issue properly, as well as spending \$75.00 in 'fees'. Now you inform me that I need to submit an additional \$90.00 to use my well for irrigation; which I have in fact been doing for over two years. I have not purchased any additional acreage, and am not irrigating same. I do not intend to expand my irrigation requirements at this time either. Nor do I intend to submit an additional \$90.00 for the privilege of watering my grass.

If you find this unacceptable, please inform me of same at your convenience. Thank you.

Yours truly,

Charles M. Dickson

Re: Water Right Permit No. 29-07987
Drilling Permit No. 29-88-E-034

Dear Mr. Dickson:

Your file has been referred to me because of the unsettled dispute that has occurred concerning the fee for the drilling permit. First of all, let me apologize for the delay in attempting to settle the dispute. I would also like to apologize for any misleading information you received regarding the drilling permit fee structure. The Department will attempt to clarify, in this correspondence, the legal permitting procedures that we must administer.

On June 21, 1988, you applied for and received a drilling permit (copy enclosed). The permit was issued for domestic use. On August 20, 1990, you were issued a water right permit (copy enclosed). The water right permit was issued for domestic use and the irrigation of 2 acres, with a total diversion capability of 0.06 cfs. For your information, domestic use constitutes irrigation of 1/2 acre or less, diverts 0.04 cfs or less, or 13,000 gallon per day or less. Therefore, the Department must consider that the well is nondomestic in nature because you irrigate 2 acres and divert 0.06 cfs.

The fee for a domestic drilling permit was \$10, while the nondomestic fee was \$100. Those fees increased on July 1, 1990. However, the Department will use the fee schedule in effect at the time you applied for your drilling permit.

In any case, in order for the Department to continue with the proof analysis, field examination, and eventual issuance of a license, you must be in compliance with the conditions of your water right permit. One of the conditions of your permit states:

5. Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

RECEIVED

APR 07 1993

In order to be in compliance with this condition, you must provide the appropriate drilling permit fee. Since you have already paid \$10, you must submit an additional \$90 drilling permit fee.

Mr. Dickson, once again, I would like to apologize for the delay in settling this matter and for any misinformation you may have received. I hope I have clarified any questions you may have had. I also want to reiterate that until you are in compliance with the conditions of the permit, the Department will not proceed with the licensing of your water right. Therefore, in order to expedite this process, please return the additional \$90 drilling permit fee within 30 days of the date of this mailing.

In the mean time, if you have any questions or if we can be of any further assistance, please feel free to contact the Department.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

POCATELLO ID 83204

Dear Mr. Dickson:

Re: Permit No. 29-07987
Drilling Permit No. 29-88-E-034

Please be advised that in order for your well to comply with the drilling requirements of Section 42-235, Idaho Code, you must submit an additional \$90 for the use of the well for irrigation purposes. When you applied for the drilling permit, you were issued a permit for the drilling of a domestic well only at the cost of \$10. The fee for drilling a well for irrigation of two acres and domestic purposes is \$100.

If you do not submit any additional fee for the drilling permit, you are only authorized to use the well for domestic purposes at a rate of 0.04 cfs. The water right will not be licensed for 0.06 cfs. If you submit the \$90, the drilling permit can be amended to include the irrigation use at the greater diversion rate.

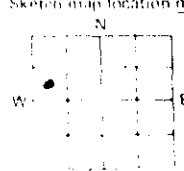

Please submit the additional \$90 fee within 30 days of the date of this letter. If you have any questions concerning this matter, please contact this office.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

ACTION OF IDWR

(X) Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

Dated this 21st day of June, 1988.

PROOF DUE NOTICE

RE: PERMIT NO. 29-07987

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 29-07987

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

MICROFILMED

SEP 14 1990

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

RE: Application for Permit No. 29-07987

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the IDAHO STATE JOURNAL on June 21 & 28, 1990. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
