WATER RIGHT LICENSE

WATER RIGHT NO. 29-07941

Priority: March 31, 1990

Maximum Diversion Rate:

0.08 CFS

Maximum Diversion Volume:

0.6 AF

This is to certify, that DALE B KIRKHAM
DALE B KIRKHAM JR

PO BOX 4026

POCATELLO ID 83201-4026

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated March 26, 1990; and has submitted Proof of Beneficial Use on July 6, 1992. An examination indicates that the works have a diversion capacity of 0.130 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
COMMERCIAL	01/01 to 12/31	0.08 CFS	0.6 AF

LOCATION OF POINT(S) OF DIVERSION:

BANNOCK County

PLACE OF USE: COMMERCIAL

TWN RGE SEC

06S 34E 22

NWSW

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
6. The Director retains jurisdiction of the right to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water groundwater rights.
7. Commercial use is for repair shop.

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

As you are aware, I have returned your proofs of beneficial use, submitted in connection with the above referenced permits, for failure to properly complete them.

Since your permits lapsed on July 1, 1992, they are of no further force nor effect. Until the properly completed forms are returned, they cannot be reinstated and continue to remain lapsed.

I understand that you have been out of state and have subsequently held the permits pending your return. However, we can no longer continue to hold the files without action.

Please return the original properly completed forms no later than September 10, 1992.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Dear Permit Holder:

On July 8, 1992, I returned the Proof of Beneficial Use forms you submitted in connection with the above referenced permits. They were incomplete as submitted, and required further information concerning the well drilling. I also requested that you return the correctly completed form within 30 days.

As of this date, I have not received the corrected forms. You should be aware that your permits lapsed on July 1, 1992, and are of no further force nor effect. Your priority date for each permit is being penalized by one day for every day that they are not returned. Furthermore, if they are not returned on or before September 1, 1992, it may not be possible for the Department to reinstate the permits.

I would ask once again that you complete the well drilling info and return the correctly completed form as soon as possible. If I have not received them by September 1, 1992, I will assume you no longer wish to pursue these permits.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Your priority date for each permit is being penalized by one day for every day that they are not returned. Furthermore, if they are not returned on or before September 1, 1992, it may not be possible for the Department to reinstate the permits.

I would ask once again that you complete the well drilling info and return the correctly completed form as soon as possible. If I have not received them by September 1, 1992, I will assume you no longer wish to pursue these permits.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

RE: Permit No. 29-07942 and 29-079041

Dear Permit Holder:

Returned is your Proof of Beneficial Use Form. Before we can complete processing, additional information is required.

A drilling permit is required for all wells drilled, deepened or enlarged after July 1, 1987 (Section 42-235, Idaho Code). You have indicated neither the well driller or the date the well was drilled. If the well was drilled prior to July 1, 1987, simply indicate this on the form and return it to me.

If your well was drilled after July 1, 1987, please submit a copy of the drilling permit. The well log should have been submitted by the driller within 30 days of the completion of the well. If you have a copy of the well log, please submit that as well. If you do not, please contact your driller and ask that he submit a copy.

Please return the completed document to me within 30 days of the date of this mailing. At that time, I will continue to process your proof of beneficial use. Please address all correspondence directly to me.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 29-07941

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P29-07941

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you

commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

RE: Application for Permit No. 27-7510, 29-7939, 29-7941,
29-7942

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Morning News on MAY 17 & 24, 1990. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
