CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.

WATER RIGHT NO. 29-07876

CONDITIONS/REMARKS:

4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
6. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
7. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.
8. Place of use is located within Lots 6 and 7, Block 2, Caribou Acres Subdivision.
9. Stockwater use is for 8 horses.
10. Domestic use is for 1 horse.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.

OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 29-07876)
IN THE NAME OF JAMES E AND DIAN SWANSON) ORDER OF
REINSTATEMENT)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before July 1, 1992; and,

WHEREAS, the Department notified the permit holder by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

WHEREAS, the Department notified the permit holder that the permit had lapsed for failure to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on July 13, 1992;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 29-07876 be REINSTATED with an advance in priority to December 17, 1989.

Drilling Permit No. 28-89-E-010
Drilling Date: 1989
Proposed Location: 07S, 35E, Section 30, SE $\frac{1}{4}$ NW $\frac{1}{4}$

In the department's review of the proof of beneficial use submitted in connection with the above referenced permit, the department was not able to locate a well log which should have been submitted 30 days after completion of the construction of this well.

While it is possible that you have submitted the log, we have been unable to locate it. Please supply me with another copy. Please address any correspondence directly to me. Your response should be received within 20 days of the date of this mailing.

This information is needed before the department can proceed further with the examination of the permit holders system and the eventual issuance of a license of water right.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

SUBJECT: Proof Fee
DATE: 7/8/92

Received a call from Mr. Swanson today. He requested that I double check to make sure no check was received. He is positive he wrote one. The date stamp indicates that no check was received. Explained to Mr. Swanson that the only way his priority will not be penalized is if this was a department error or if there was a delay in my response time back to him.

LAPSE NOTICE

RE: PERMIT NO. 29-07876

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated April 30, 1992. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

Re: Permit No. 29-07876

Dear Permit Holder:

Returned is the Proof of Beneficial Use form submitted to this office. It indicates the total rate of water to be 0.08 cfs.

When the total maximum rate of diversion is greater than 0.04 cfs, a license examination fee is required to be submitted with the proof. A license examination fee based on a rate of flow of 0.08 cfs is \$50. Note the back of the enclosed instruction sheet/fee schedule. You indicate the your knowledge of the fee, however, no check was enclosed.

Since your proof was due on or before July 1, 1992, it has lapsed and is of no further force nor effect. Therefore, it is imperative that you return the proof and fee to me as soon as possible. Upon receipt of the proof form and fee, we will continue processing your proof by notifying the region that a field exam is needed.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

PROOF DUE NOTICE

RE: PERMIT NO. 29-07876

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1992.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

RE: PERMIT NO. P29-07876

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you

commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

Drilling Permit No. 29-89-E-10

James E. &/or Dian Swanson

Pocatello, ID 83204

Dear Mr. and Mrs. Swanson:

We have received the above referenced application from our Eastern Regional Office for final action. However, in reviewing the file, we found that you have not submitted the appropriate drilling permit fee for the uses applied for on your water right application.

A \$100.00 fee is required for drilling an irrigation well and in our file it is noted that you only paid a \$10.00 drilling permit fee. Please submit the additional \$90.00 at your earliest convenience. Be advised that the drilling permit fee for irrigation wells will be going up to \$200.00 on July 1, 1990.

We will withhold any further action on your water right application until we either receive the additional \$90.00 drilling permit fee or a letter from you which disclaims the irrigation use on your application.

If you have any questions in regard to this matter, please feel free to contact this office or our regional office in Idaho Falls.

Sincerely,
