

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 29-07843

Priority: January 19, 1988

Maximum Diversion Rate:

0.02 CFS

Maximum Diversion Volume:

0.1 AF

This is to certify, that US DEPT OF AGRICULTURE
FOREST SERVICE
FEDERAL BLDG
324 25TH ST
OGDEN UT 84401

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated January 19, 1988; and has submitted Proof of Beneficial Use on September 24, 1990. An examination indicates that the works have a diversion capacity of 0.020 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01 to 12/31	0.02 CFS	0.1 AF

LOCATION OF POINT(S) OF DIVERSION: NESW, Sec. 5, Township 08S, Range 35E
BANNOCK County

PLACE OF USE: DOMESTIC

TWN RGE SEC

08S 35E 5

NESW

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the use of water to implement accepted standards of diversion.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for Cherry Springs Nature Area.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 7th
day of July, 1995.

STATE OF IDAHO

DEPARTMENT OF WATER RESOURCES

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources will consider this form as a statement that the permit holder(s) has completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

Permit No. 29-07843

Name(s) of Permit Holder: United States of America - Forest Service

Post Office Address: 324 25th Street, Ogden, Utah 84401

Telephone No. (801) 625-5360

Source of Water: Cherry Springs Nature Area Well

Extent of Use:

Domestic - (number of households) Stockwater - (number and type of stock)

Irrigation - (acres) Other/Remark Culinary water for Cherry Springs Nature Area

Total rate and/or volume for which proof is submitted .02 cfs or .1 acre-feet

Show the date water was first diverted and beneficially used under this permit: 12/87

Measuring Device: Required? - Yes X No
Installed? - Yes X No
Fee enclosed \$ 0.00
(See License Examination Fee Schedule)

Flow Measurement Port: Required? - Yes X No
Installed? - Yes X No

Person to contact to accompany the Department representative during the field examination:

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

APPROVED

1. Name of applicant United States of America, Forest Service Phone (801) 626-3561

Post office address 324 25th Street, Ogden, Utah 84401

2. Source of water supply Cherry Springs Nature Area Well GW which is a tributary of Mink Creek

3. Location of point of diversion is NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 5 Township 8 S.

Range 35E B.M. Bannock County, additional points of diversion if any: _____

020-058

4. Water will be used for the following purposes:

Amount .02 for Domestic purposes from Jan. 01 to Dec. 31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. .02 cubic feet per second ~~and~~ or b. .01 acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. _____

Well with 8 inch casing

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage January 1 to December 31 inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is 6 inches; proposed depth of well is 150 feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is X2 years (minimum 1 year - maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 5 Township 8 S.

Range 35E B.M.

(2) Amount of power to be generated: N.A. horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served N.A., or number of people to be supplied with domestic water _____

(5) If water is to be used for other purposes describe: _____

Culinary water for Cherry Springs Nature Area. See remarks for further details.

NOV 21 1988

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	

Total number of acres to be irrigated _____

c. Describe any other water rights used for the same purposes as described above. N.A.

9. a. Who owns the property at the point of diversion United States Government, Administered by USDA Forest Service

b. Who owns the land to be irrigated or place of use Same

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing N.A.

10. Remarks _____

Purpose of well is to provide culinary water for Cherry Springs Nature Area.

Water will service year-round use of drinking fountains, wash water in toilet, and hose bib for toilet.

Well will be drilled to the second layer of water table (estimated at depth of 65 feet.) A submersible electric pump will be installed. Storage capacity is not necessary.

Well site will be located by the first table on the North Trail at Nature Area.

See 11.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 29-7843, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before October 1, 19 90.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

Witness my hand this 6th day of September, 1988.

PROOF DUE NOTICE

RE: PERMIT NO. 29-07843

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 29-07843

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the

NOV 21 1988

permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

Gary Spackman
Supervisor, Water Allocation Section

ACTION OF IDWR

() Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

SPECIFIC CONDITIONS:

Dated this 30 day of June, 1988.

Department of Water Resources

Dear John:

Enclosed is a copy of the completed Well Drilling Permit and \$10 fee for Application for Permit Number 29-7843.

As indicated in your letter, the well driller's log shows a different location for the well than the Application for Permit. The actual location is correctly stated in the Application for Permit, that is, the well is located in NE 1/4, SW 1/4, of Section 5 as indicated on a USGS 7.5 minute quadrangle map. Please change the driller's log to reflect the correct location.

If you have additional questions, please contact the Forest Water Rights Coordinator, Tim Burton, at this office (208) 236-6700.

Sincerely,

PAUL R. NORDWALL
Forest Supervisor

RE: Drilling Permit
Application for Permit 29-7843

Gentlemen:

The enclosed letter was sent to the Pocatello Office in February. Findlay Drilling has submitted a well driller report for a well drilled for you in 1987. As the February letter states, certain legal requirements must be met before this report is filed.

Beginning July 1, Section 42-235 of Idaho Code requires that a drilling permit and fee be submitted to the Department for all wells drilled or deepened. Enclosed is a partially completed drilling permit application. Please complete and sign the form and return it to me with the \$10 fee.

Your application for permit shows a point of diversion of the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 5, whereas Findlay's log shows the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 8. Which is correct?

Application 29-7843 will be held pending receipt of the Drilling Permit and clarification of the legal description.

If you have any questions or comments, please contact me.

Sincerely,

JOHN E. BEAL, Manager
Groundwater Protection Section

Pocatello, Idaho 83201

Dear Mr. Nordwall:

Enclosed you will find a drilling permit application for the Cherry Springs Campground well. I will need you to sign and date this form and return it to me with the required \$10 fee.

Ordinarily, the sequence of events dealing with an Application for Permit starts with the filing of said application and filing for a drilling permit. This dual permit process came into effect on July 1, 1987. After the Application for Permit is approved, the drilling permit is also. Only then should the well driller begin his work. The drilling permit number should be shown on the well log the driller submits to this office.

In any event, I would appreciate your assistance in this permitting process. If you have any questions, please give me a call.

Sincerely,

Harold W. Jones
Sr. Resource Agent
