PLACE OF USE: STOCKWATER, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to reflect cropping patterns or acceptable standards of water delivery efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 29-7811, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before September 1, 19 87.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: The issuance of this permit in no way grants any right-of-way or easement across the land of another.

This permit is subject to the agreement dated 8/5/1986 between permit holder and protestant(s) to the extent such agreement covers matters within the jurisdiction of the Department of Water Resources.

Use of water under this permit is subject to control by the watermaster of State Water District No. 29F, Rapid Creek.

Witness my hand this 19th day of August, 1986.

The Spring is used for irrigation of lawn and garden by way of 5/8" garden hose & rain birds (2), and also is used for stock water. 2 troughs were observed. 5 horses were observed also, he said he normally has 50 stock cattle but were on mountain range grazing.

PROOF DUE NOTICE

RE: Permit No. 29-7811

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1987. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK

SEREN R. OR PEGGY L. CHANDLER) AND/OR CONFERENCE
_____)

On May 19, 1986, Seren R. or Peggy L. Chandler filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On May 30, 1986, a protest was received by the Department from Samuel D. Chandler.

The Department has set the matter of protest for hearing for 10:00 a.m., Tuesday, August 5, 1986, in the Conference Room, Pocatello Airport, Pocatello, Idaho. The hearing will be held in accordance with provisions of Chapter 2, Title 42, of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Dated this 14th day of July, 1986.

RE: Application for Permit No. 29-7811

DATE: July 1, 1986

Seren Chandler, the applicant for the above captioned application, called this office today to discuss his application and obtain some information concerning water right law. Seren indicated that his brother, Sam, has historically diverted water from the spring in question through a 2-inch pipe. Seren has been using the overflow from his brother's spring box for a couple of years and finally decided to file an application for permit on this use. He indicated there was sufficient overflow to water stock and run two sprinklers for irrigation of his lawn. Seren also stated it was unlikely the two of them could resolve the protest, especially since his brother now wants to replace the existing pipe with a larger one which has the capacity for conveying the entire spring flow. He asked whether or not his brother has the right to install a larger pipe. I advised him that an application would be needed if Sam were to divert a larger quantity of water than he has historically diverted.

Since it is doubtful this protest will be resolved, I also informed Seren we would try and schedule an administrative conference and/or hearing on his application sometime during the first week of August.

Dear Applicants:

Enclosed is a copy of a protest filed against the issuance of a permit pursuant to your Application No. 29-7811. The Department suggests you contact the protestant directly in an effort to determine the nature of the protest and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

If this office can be of further assistance, please contact us.

Very truly yours,

Re: Application for permit No. 29-7811

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification no. 29-7811. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in Idaho State Journal. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protests must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When the permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find your receipt no. 39638 for the amount of \$30.00.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,
