Dear Julian:

I have enclosed the water right license issued on permit no. 29-07732. I have also enclosed a receipt for the examination fee you paid.

As we discussed on the phone, the license was issued in the name of the original permit holders because IDWR has not received an assignment from them. Now that the right has been licensed and made appurtenant to the land upon which it is used, you can complete and return the enclosed ownership change notification form and we will change our records.

If you have any questions, please contact me at 208-327-7946.

JULIAN SMITH

Permit 29-07732 is currently being reviewed for licensing. The Department's field examiner recommended licensing your water right with a diversion rate of 0.08 cfs. However, because no examination fee was submitted with your Proof of Beneficial Use, your license will be limited to 0.04 cfs.

If you want your water right license to reflect the 0.08 cfs found by the examiner, you must submit the examination fee of \$50.00 required for a diversion of 0.08 cfs, plus a late payment penalty of \$25.00, within 30 days. If we receive the examination fees after 30 days from the date of this letter, the priority date of your right will be advanced in accordance with Section 42-217, Idaho Code.

If you have any question, please contact me as soon as possible at (208) 327-7946.

Dear Mr. Graves:

RE: Permit No. 29-7732

PROOF ACKNOWLEDGEMENT LETTER

On November 21, 1989, the Department received a Proof of Beneficial Use form and on March 5, 1990, the Department corresponded with you regarding the rate of diversion and appropriate fee and the change in name of permit holder(s). Later, the Department received and returned the assignment form for signatures. Enclosed is a copy of each letter.

Again, to change the ownership of a permit, a notarized assignment conveying the permit is required.

As explained in the first letter, the Department reduced the diversion rate to 0.04 cfs and has processed the proof of beneficial use form since it was signed by you, a current permit holder. The next step is for the Department to conduct the field inspection to determine the extent of beneficial use. I cannot tell just when the field inspection will be conducted, but the regional office will contact you to schedule a convenient time.

If you have any questions about the field inspection, you should contact the Eastern Regional office in Idaho Falls at 525-7161.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

Dear Mr. Graves:

We are returning the assignment form you submitted changing ownership of the above referenced permit. An assignment form needs to be signed by the current permit holders, in this case, Pat O'Connor, W. F. Tunison and yourself. We note that you signed the form, but the other signatures are from the individuals named as "new" water right holders.

Enclosed for your convenience is another assignment form. Please complete the form and sign it along with Mr. O'Connor and Mr. Tunison, then return it to us so that we can modify our records to reflect the ownership change.

Sincerely,

RE: PERMIT 29-7732 - PROOF OF BENEFICIAL USE

Dear Mr. Graves:

The department has reviewed the proof of beneficial use statement which you submitted to the department on November 21, 1989.

The permit was issued in the names of W. F. Tunison, Pat O'Connor and Terry Graves. The proof statement shows the names of Terry Graves, Charles Minor and Lee Hansen. Enclosed is an assignment form which can be used to change the names on the permit and license which will ultimately be issued. The completed assignment form needs to be filed with the department.

The permit was issued authorizing a maximum rate of diversion of 0.08 cfs (about 36 gallons per minute). The proof submitted shows a maximum rate of 0.04 cfs. A license examination fee is not required for rates of diversion of 0.04 cfs or less. If more than 0.04 cfs is to be used, a license examination fee in the amount of \$50 must be submitted to the department.

The department will assume that the proof is intended for a maximum rate of diversion of 0.04 cfs unless the license examination fee is submitted within thirty (30) days.

Please feel free to contact the department if you have questions.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 29-07732

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager
