RE: Conditions of Approval

The conditions of approval placed on this right as a permit are hereby removed &/or considered to have been complied with and are therefore not being considered for licensing.

The conditions requiring 1) installation of an access port, 2) IPUC or FERC approval, 3) subjection to Sections 42-205 thru 42-210, I.C., and 4) operation so as not to interfere with future diversion of water for irrigation or other beneficial use were applicable for use of water for power purposes as originally planned in the application stage. However, power production was not developed under this right, so the conditions are considered null and void at this point.

Further, the condition placing the right under the control of the watermaster is not appropriate for this small domestic use and is also removed from the license.

RE: Permit No. 29-7649

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1987. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

Re: Permit No. 29-7649

Dear Mr. Scott:

I have received and reviewed your letter dated September 13, 1985, which was submitted in response to my September 1, 1985 letter. Our letter was intended to provide you with some information only. The letter did not require you to do anything.

The information we wanted to convey to you is as follows:

1. On July 1, 1985, an amended statute identified as 42-203D became effective. It essentially says that permits for which development was not complete by July 1, 1985 will be reviewed by the Department.
2. If by chance a project was complete by July 1, 1985, the permit holder should submit the proof of beneficial use, even though it might not be due yet under the terms of the permit, in order that the Department would know that the permit is not subject to the review requirements of Section 42-203D, Idaho Code.

I reviewed the water right file and determined that on December 8, 1983, you submitted the start of construction card to the Department. I did not find that proof of beneficial use had been submitted to the Department in the past. Since proof of beneficial use is due on the permit until September 1, 1987, however, your permit has not been jeopardized in any way.

Enclosed is a proof of beneficial use form which may be completed and returned to the Department if, in fact, the development you intend to do under the permit is complete.

Please contact the Department if you have questions or if the Department may be of assistance to you.

Sincerely,

Dear Sir:

I mailed a cord to the Idaho Falls office in June of 1984. I was never contacted by anyone since that time until I received your letter of Sept 1, 1985.

We have been using the water the past 2 summers. It is impossible to get to the property in the winter months. Therefore I would appreciate hearing from your office as to the disposition of this matter. It would have to be kept July before we will be in Idaho. Thank you

Sincerely
Harry Scott

IF THE DEPARTMENT FINDS THAT THE PROPOSED USE DOES NOT SATISFY THE CRITERIA OF CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL EITHER CANCEL THE PERMIT OR IMPOSE THE CONDITIONS REQUIRED TO BRING THE PERMIT INTO COMPLIANCE WITH CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PERMIT SATISFIES THE CRITERIA ESTABLISHED IN CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL ENTER AN ORDER CONTINUING THE PERMIT.
