STAT-STATS
OFFICE OF THE
DIRECTOR (1000)

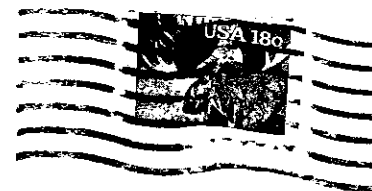

This water system is a well with a 3 H.P. submersible pump watering 6 acres (M.O.L.) by using 2" portable aluminum pipe with 9 sprinkler heads. The well has been in operation a number of years and was in use when I purchased this place from Mr. Wm Olson in 1973. I don't know how long it was in operation before I bought it.

I am tired of all this bureaucratic hassling as I voluntarily made a trip to Idaho Falls to ascertain the water right going with the place I purchased. I paid the fees they asked for and have complied with every thing they asked for, now you say you haven't received what I mailed. Check with your Idaho Falls people and either issue the permit or reject it and let me know.
