

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 29-7498 Priority June 14, 1979 Amount 0.08 cfs

THIS IS TO CERTIFY, that A. Richard & Lonna Jean Conroy
of McCammon, Idaho, has complied with the terms and conditions of Permit
No. 29-7498 issued pursuant to Application for Permit dated June 14, 1979,
and has submitted proof to the Department of Water Resources on July 9, 1982,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.08 cfs of water from Marsh Creek,
tributary to Portneuf River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>March 15</u> to <u>November 15</u>	at <u>0.08</u> cfs and	<u>17.5</u> acre feet
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 0.08 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
17.5 acre feet per year, said waters to be diverted within the SE1/4 Section 22,
Twp 8S, Rge 36E in the County of Bannock

Description and location of place of use:

Twp.	Range	Sec.	NE1/4				NW1/4				SW1/4				SE1/4				Totals
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	
8S	36E	22							1	4									5

Total number of acres irrigated 5

MICROFILMED

CONDITIONS OF APPROVAL

a. Modifications to or variance from this license must be made within the limits of Section 42-222, **Idaho Code**, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.

c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.

Use of water under this license is subject to control by the watermaster of State Water District No. 29H, Marsh Creek.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 17th day of September, 19 86.

Acting for the Director Betty D. Flemer

MICROFILMED

5-10
-6.5

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 29-7498)
IN THE NAME OF A. RICHARD AND LONNA) ORDER
JEAN CONROY)
_____)

WHEREAS, on June 14, 1979, A. Richard and Lonna Jean Conroy applied to the Department of Water Resources for a permit to appropriate 0.24 cubic feet per second of water from Marsh Creek tributary of Portneuf River to be diverted within the SE1/4NW1/4, Sec. 22, Twp. 8S, Rge. 36E B.M., Bannock County, to be used for irrigation purposes; and

WHEREAS, on August 17, 1979, the application was approved with the conditions that proof of construction of works and application of water to a beneficial use be submitted on or before September 1, 1982, and a measuring device, subject to the approval of the Department, shall be installed on the diverting works in a manner that will provide the watermaster suitable control of the diversion; and,

WHEREAS, on July 9, 1982, the Department received proof of beneficial use along with a request to remove the measuring device requirement; and,

WHEREAS, the limited rate of diversion and the predictable rate of flow pumped through the sprinklers alleviates the need for a measuring device at the present time;

IT IS, THEREFORE, HEREBY ORDERED that the requirement of a measuring device be and is REMOVED from Permit No. 29-7488.

Dated this 4th day of August, 1982.

L. GLEN SAXTON

Chief, Operations Bureau

MICROFILMED

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

APPROVED

To appropriate the public waters of the State of Idaho

1. Name of applicant A. Richard and Lonna Jean Conroy Phone 254-3456

Post office address Route 1, Marsh Creek Road, McCammon, Idaho 83250

2. Source of water supply Marsh Creek which is a tributary of Portneuf River

3. Location of point of diversion is SE $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 22 Township 8S

Range 36E B.M. Bannock County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 0.24 for Irrigation purposes from 4/1 to 11/1 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 0.24 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Gas or diesel driven pump, pipeline
and sprinkler system

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir
capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial
use is three years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____
Range _____ B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be
supplied with domestic water _____.

(5) If water is to be used for other purposes describe: _____

MICROFILMED

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 29-7498, and said application is hereby approved.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before September 1, 19 82.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: (1) Use of water under this permit is subject to control by the water-
master of State Water District # 29 H Marsh Creek. (2) A measuring device,
subject to the approval of the Department, shall be installed on the diverting
works in a manner that will provide the watermaster suitable control of the
diversion.

Witness my hand this 17th day of August, 19 79.

RE: Permit No. 29-7498

A. Richard Conroy
Rt. 1, Box 1080
McCammon, ID 83250

Dear Mr. Conroy:

Per our telephone conversation I have further reviewed the field examination report to determine if additional water could be included on the proposed license.

On the date the examination was conducted the examiner found two mainlines with seven sprinkler heads each in operation. Each head had 1/8" nozzles. The examiners report shows one line at 30 psi and the other at 32 psi. Discharge from each line was determined to be 17.92 gpm and 18.48 gpm for a total discharge of 36.4 gpm or 0.08 cfs.

The Department issues licenses based upon the information provided in the examination report even though the water application systems may change after the examination is made. The only exception to this policy is when an error has been made by the examiner. Since no error is indicated, the only option left is to file a new application for permit which adds the amount you feel you are now diverting.

If you feel an error does exist in the above information, you can request a re-examination. However, there is an examination fee of \$50.00 required.

If we do not hear from you within 10 days the license will be issued as proposed. If I can be of further assistance, please let me know.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

Re: Proof of Beneficial Use, Permit No. 29-7498

Gentlemen:

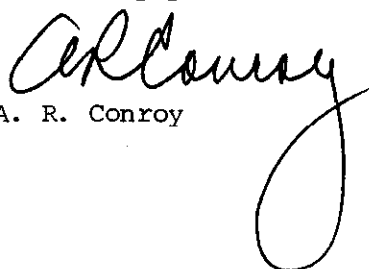

A condition for approval of my permit requires installation of a measuring device acceptable to the Department. However, my sprinkling system is a very small one, consisting of a gas-driven pump, single 3-inch line and a maximum of 15 sprinkler heads in operation at any one time.

I have discussed this matter with Mr. Ron Carlson, your Eastern Region Supervisor, and he suggested that because of the small size of the system and the ease of estimating flow through the limited number of sprinkler heads, it may be unnecessary to require the expense of installing a measuring device.

I therefore request that this condition for approval of the permit be waived and that approval be granted based upon installation of the system in July of 1981, continuous operation through October 1981, and 1982 operation beginning again in July.

Thank you for your consideration.

Very truly yours,

A. R. Conroy

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. We have allowed ample time for you to submit a galley proof to this office for review before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before JULY 9, 1979.

Yours truly,

RONALD D. CARLSON
Supervisor

Mr. Carlsen -

Thank you for your letter explaining why modifications to my application for permit to appropriate water were necessary. My wife and I have signed the revised application which is attached along with my check for the required application fee.

Sincerely,

McCammon, Idaho 83250

Dear Mr. & Mrs. Conroy:

The Department has reviewed your application for permit to appropriate water from Marsh Creek and finds it necessary to return this application because it is not in form to receipt. You will, therefore, find enclosed your original application, a typed application, and your personal check No. 2577 in the amount of \$35.00.

In Item 4, it is customary to indicate diversion for irrigation in cubic feet per second rather than acre feet per annum. We have, therefore, taken the liberty of retyping your application and indicating 0.23 cfs for irrigation, which is equivalent to one miners inch per acre for the maximum allowable appropriation.

On your original application, you indicated you were using a well for domestic uses, stockwater, and lawn irrigation. We have deleted this from the one we typed since it would be necessary to file a separate application on the well. However, you should be advised that it is not necessary to file on a well which is being utilized for this purpose.

Please review the typed application, initial any changes you make, sign where indicated, and return it to this office with your check for \$35.00. We will then be glad to resume processing procedures. Should you have any questions regarding this matter, please feel free to contact me.

Respectfully submitted,

ERNEST M. CARLSEN
Water Resource Analyst
