We are therefore forwarding this correspondence to you in hopes that you are able to contact Mr. Rose and pass this information on for review and action. We will hold action on this water right for an additional 30 days to allow you to handle this matter.

We will also need a current address for Mr. Rose for future correspondence. If you have any questions concerning this matter, please feel free to contact our office.

Dear Mr. Souza:

Thank you for your letter dated July 19, 1982. In reviewing the above referenced permit I find that the permit was approved on June 17, 1977 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted to our office on or before June 1, 1982.

On March 31, 1982 our office sent a reminder letter that proof must be submitted or a request of extension of time must be submitted on or before June 1, 1982.

On April 13, 1982 our office received a request for extension of time and on April 21, 1982 approved that request and now the beneficial use date is June 1, 1987. Mr. Rose stated on his request of extension of time that one well was drilled but does not provide enough water and due to economical reasons he is unable to drill another well at this time.

Before the water right can be perfected into a license our office must receive a beneficial use card saying that the project is completed and a field exam must be done by our office.

If you have any other questions concerning this water right, please feel free to contact me at 334-4123.

Sincerely,

ROBYN CARLSON
