Re: Jay P. Merkley
Permit No. 29-7386

Attn: Bobby D. Fleenor
Chief, Water Rights

Dear Bobby:

The above-captioned Application for Permit was filed on approximately 31 May 1977, and your Department approved the Permit on or about 6 June 1977.

Although the appropriation of the water has been completed, and the water in question has been applied to beneficial use, it is going to be necessary to amend the Permit for the following reason:

The proposed diameter of the well was 8 inches, and the proposed depth of the well was stated as 90 feet in the original Application for Permit, at Paragraph 6 (c) of the Application; whereas, the actual diameter of the well is 16 inches, and the depth also varies somewhat.

Accordingly, I suspect that you will want the Permit holder to amend the said Permit No. 29-7386, so as to disclose the true diameter of the well and the well casing as 16 inches. As I understand it your department will furnish these amendment forms upon request.

One final question, Bobby -- would it be feasible to also amend Paragraph 5 of the Application, showing 0.56 cubic feet per second, rather than 0.28 c.f.s. as originally proposed?

Would surely appreciate your furnishing me with the pertinent amendment forms -- and answering this query -- by this coming Friday, May 15.

Thank you again, and please convey my best wishes to Mr. Higginson.

Every Good Wish,

Jayson H
