Department of State Resources

Don Henderson of Swan Lake
(Name) (Address)

State of Idaho, deposes and says:

That he is the holder, or the duly authorized agent of the holder*, of Permit to Appropriate the Public Waters of the State of Idaho No. 29-7311.

That under the terms and conditions of said permit, work thereunder was required to be completed on or before Mar. 1, 19 81.

That I have performed the following work toward developing said permit: I have drilled
100 ft. with 8 inch hole + capped it.
(This information must be provided on all extension requests, if none, so state.)

works

Costing \$ 2,000.00

That I have been unable to complete the remainder of the work within the required time for the following reasons: The shortage of electric power makes it impossible to
use only a 5HP motor, + I haven't been able to get it
installed.

I ask the Department of Water Resources to extend the time for the completion of obligations under said permit to June 1, 19 85.
(1 to 5 years)

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 29-7311

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

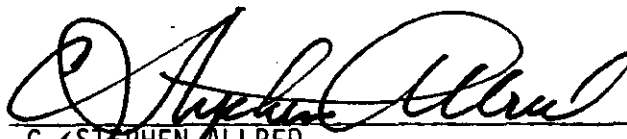

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You must inform the department of your decision to use this alternative and submit the fee information sheet to the department to conduct the field examination, but you may change to another certified examiner.

NOT RECORDED
MAY 09 1989

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Re: Permit No. 29-7311

This office acknowledges receipt of the statement of beneficial use postcard submitted for this permit.

Before a license can be issued, a field examination must be made by a representative of this department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you or a representative may show him the system.

If you have any questions regarding the field examination, please contact our Eastern Regional office at 525-7161.

Dear Permit Holder:

Your water right permit(s) may be affected by a change made in Section 42-204, Idaho Code, by the 1982 Idaho Legislature.

Because of the change, you must commence the excavation and construction of the diverting works for your permit(s) no later than July 1, 1983. The statute further requires that you then proceed with due diligence in completing the diverting works and applying the water to beneficial use.

Permits in the following three categories are not subject to this requirement:

1. Rate of flow is greater than 25 cubic feet per second.
2. Proof of Beneficial Use has already been submitted.
3. Proof of Beneficial Use is required on or before July 1, 1983.

To maintain the validity of your permit(s) you must return one Commencement of Works postcard for each permit subject to the requirement. Note that on the card you can indicate that either (1) you have commenced construction or (2) you have been prevented from initiating development due to a factor beyond your control, such as the Idaho Power Moratorium, a required approval of the federal government, or litigation which prevents development of the project.

Enclosed you will find the number of cards that our records indicate you will need. Note that the card(s) should be returned to this office by July 1, 1983. If you have further questions, please contact the regional office shown below that is nearest you.

Sincerely,

David R. Tuthill Jr.

Dear Sirs;

April 29, 1983

I have finished my well the best I can.

We only drilled an eight inch + installed a sub. pump with $1\frac{1}{4}$ inch line. We measured 5.5 gal. Per minute when it was installed.

I would like to have it checked.

I don't have any other measuring device only a bucket. Will this be satisfactory.
