WATER RIGHT LICENSE

License of Water Right No. 29-7287 Priority September 12, 1975 Amount 0.71 cfs

THIS IS TO CERTIFY, that Afton A. Smith
of Arimo, Idaho, has complied with the terms and conditions of Permit
No. 29-7287 issued pursuant to Application for Permit dated September 12, 1975,
and has submitted proof to the Department of Water Resources on September 17, 1980,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.71 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u> from <u>March 15</u> to <u>November 15</u> at <u>0.71</u> cfs and <u>345.0</u> acre feet			
_____ from _____ to _____ at _____ cfs and _____			
_____ from _____ to _____ at _____ cfs and _____			

(both dates inclusive)

Subject, however, to the condition that no more than 0.71 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
345.0 acre feet per year, said waters to be diverted within the NW1/4 Section 16,
Twp 10S, Rge 36E in the County of Bannock

Description and location of place of use:

CONDITIONS OF APPROVAL

- a. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.
- b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.
- c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF CHANGING THE MEASURING)
DEVICE REQUIREMENT FOR PERMIT NO.)
29-7287)

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

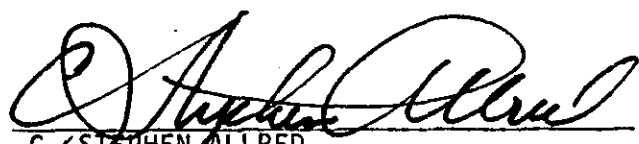

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

DATE 11-26-82FILE 29-7287NAME OF PARTY AFTON SMITHEMPLOYEE Jim JohnsonRE: The above called in reference to my 11-16-82 letter.

He felt that the 80 acres located in the N $\frac{1}{2}$ NW $\frac{1}{4}$ sec 16 should also be included on the license because he does irrigate this land, however, he does not irrigate both 80's at the same time. (The other 80's is in the N $\frac{1}{2}$ SE $\frac{1}{4}$ sec 16.) For example, for the last 2 years the NW $\frac{1}{4}$ NW $\frac{1}{4}$ sec 16 has been in grain and not irrigated however in 1980 it was in alfalfa and irrigated. ~~but~~ ^{and} the NE $\frac{1}{4}$ NW $\frac{1}{4}$ was in grain. Therefore, within a 5 year period a total of 160 acres is covered by irrigation even though only 120 acres is actually irrigated during the season. He said he had mis understood what the examiner had ~~said~~ ^{meant} when he asked how much land was being irrigated.

Per discussion w/ Dave Tutkhill we should allow up to 160 acres if the field examiner can verify how many acres can be irrigated in the N $\frac{1}{2}$ NW $\frac{1}{4}$

Dear Mr. Smith,

Thank you for your response. On September 17, 1980 we received your request for an extension of time, along with your proof to beneficial use card.

After reviewing your extension request it appears that you need more time to complete your development rather than submitting the proof to beneficial use, which implies that your project has been completed. Therefore, I am returning your proof to beneficial use card to you.

You should wait until your project has been completed before returning it.

I am also returning your extension of time request for more information. Please fill in the part which asks for a description of how much work has been completed. This should be filled in as completely as possible, including all expenses occurred, related to the development of your permit 29-7287.

Please return the request form with your check, within 20 days so that action on your permit can be made.

If we have not heard from you, the Department will be required to start action on lapsing your permit.

If you have any questions about this please contact me at 334-4162.

I have also enclosed for your convenience information about an access port.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 29-7287 WAS THAT EVIDENCE OF THE EXTENT OF DEVELOPMENT MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE NOVEMBER 01, 1980. (SEE LAST PAGE OF YOUR APPROVED PERMIT). ENCLOSED IS A POST CARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF OF BENEFICIAL USE.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU HAVE NOT PREVIOUSLY RECEIVED AN EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME PROVIDED THE DELAY IS FOR REASONABLE CAUSE AS INDICATED IN SECTION 42-204, IDAHO CODE, AMENDED. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. A REQUEST FOR EXTENSION OF TIME FORM IS ENCLOSED FOR YOUR CONVENIENCE. PLEASE NOTE THAT A FEE OF \$15.00 MUST BE SUBMITTED WITH THIS FORM.

EITHER THE BENEFICIAL USE POST CARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE MENTIONED DATE, OTHERWISE, THE PERMIT WILL LAPSE AND BE OF NO FURTHER FORCE OR EFFECT WITHIN 60 DAYS.

Dear Mr. Smith:

Enclosed is a copy of your approved Application for Permit No. 29-7287. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Please be advised that the Idaho Supreme Court has ruled that a water right initiated and/or put to beneficial use by aid of trespass on private property is invalid.

Re: Permit No. 29-7287

Gentlemen:

Our office has been contacted by Afton Smith and Larry and Grace Armstrong concerning the recent problems they have been having over the application of Mr. Smith to drill a well. I have enclosed statements by each of the parties involved, and as you will note they have gotten together and straightened this matter out to everyone's satisfaction.

If there are any further problems, please contact the undersigned.

Gentlemen:

On September 22, 1975 I received a letter notifying me of a protest on an application for a well permit. A copy of the protest letter was also enclosed, permit no. 29-7287.

I filed for enough water to sprinkle 80 acres of land belonging to Grace Armstrong on the belief that I would rent her land and if I didn't rent it, that much water would be withdrawn from the permit. They were supposed to have let me know one way or another but hadn't when I went to Idaho Falls to file. The first I ~~had~~ knew about them not wanting to rent the land was when you sent me their letter of protest. If they had come to me in the first place I could have ironed all this out peaceably without going to you.

but I suppose they thought it
had to be done this way. Since
I have received your letter we
got together and resolved our
problems and everything is all
right once again.

As for the spring, we checked
everything and come to the con-
clusion that it is only surface
water and a very small spring
which is over 200 ft. upstream
and 200 ft. off to the side
of the deep well stream. I plan
on drilling the well and in
doing so I honor any water
rights she has and we have
come to this agreement.
Thank for your consideration.

Yours truly

Dear Sir:

On September 22, 1975, we sent in a letter of protest on an application for a water permit. The permit number is 29-7287, applied for by Afton A. Smith of Arimo, Idaho.

After talking with Afton and agreeing that he would release our 80 acres, and that he would also honor the previous water rights on the spring, we would now like to ~~withdraw~~ withdraw our protest against this permit.

We appreciate the time you have taken with this matter.

Dear Mr. Smith:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 29-7287. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 41-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Dear Ms. Armstrong:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

permit.

Permit Number is 29-7287, applied
Afton A. Smith of Arimo, Idaho. The
we are protesting against the granting of
permit is because we feel Afton is applying
a land than he owns for irrigation water.
of the 320 acres he plans to irrigate
his well, belongs to us. We are not renting
nd to Afton, and we do not want our

Also want to protest this permit because
he drilled within a few feet of our
