Dear Mr. Olson,

RE: License No. 29-7283

Enclosed is a copy of the Water Right License issued on the above referenced Permit.

Please be advised that one of the conditions of your permit was that a measuring device be installed as part of your diversion works. That requirement has been waived with issuance of the enclosed license. However, in the event that water supply shortages become a problem installation of measuring devices may be required.

Sincerely,

Dear Mr. Olson:

Pursuant to the telephone conversation with your wife this date, enclosed please find the application for permit forms and checks No. 92-158 in the amounts of \$45.00 and \$65.00.

The amounts which you have requested for diversion are in excess of the 0.02 cubic feet per second of water per acre limitation. Also, the legal descriptions are incomplete. The acreage to be irrigated in each 40 acre subdivision must be listed in Item 8b.

The maximum amount allowed for a single family domestic use is 0.04 cubic feet per second of water. Irrigation and domestic should be listed separately in Item 4, complete with amount and period of use.

Before returning the applications, please complete Item 7a giving from 1 to 5 years for completion of works. Also, sign them exactly as you list your name in Item 1.

Very truly yours,
