Dear Ms. Andrews:

In reviewing your application for permit, we found several discrepancies which will need to be corrected before processing can commence. They are as follows:

Item 3a - The location should be described to the nearest 40 acre subdivision of the section.

Item 3b - This question does not apply to your diversion.

Item 4 - You only show a possibility of irrigating 5 acres. The statutory allowance for this amount of acreage is 0.10 cfs at a rate of 0.02 cfs per acre. Also, the recognized irrigation season in your area is April 1 to November 1.

Item 7a - The statutory time allowance to prove beneficial use of the water under the permit provision is 5 years.

Item 7b - The estimated cost of the implementation of this permit should be indicated.

Item 8b - This item has to be completed.

Item 8c - We do not have any record of water rights for this described land. We placed "none" here.

We have enclosed your check No. 92-111 in the amount of \$10.00 and a retyped application. Please review the retyped form and if it meets with your approval, please sign and return it with a \$10.00 filing fee.
