Dear Mr. Hurst:

Please find enclosed your check No. 92-23 in the amount of \$10.00 and an application for permit which we have completed from the information you submitted in your letter of April 26, 1975. Please review this application and correct any errors that you find. If it meets with your approval, sign and return it to this office with the statutory filing fee of \$10.00.

The 0.06 c.f.s. indicated for irrigation is less than that which you requested. However, it is the maximum amount allowed by the Idaho Code without justification.

You indicated in your letter that the water you wish to appropriate arises on your property. If this water leaves your property, then it becomes available for appropriation by downstream users and your permit will be subject to all prior water rights. If the water rises solely on your property and never leaves, then it is classified as private water and you have exclusive right to it.

If you have any other questions, please feel free to contact us.
