Dear Sir:

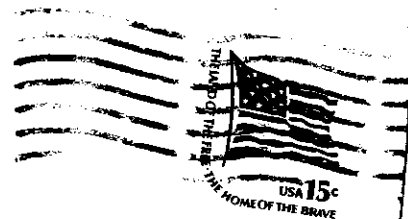

The watering system is complete and was completed before July 1, 1980. I failed to submit the post card the end of June because of a series of problems:

- 1) We were without water (pump failed) for six days in June
- 2) Vacation (2 weeks) in June
- 3) Out of State funeral trip in June
- 4) Out of State business trip in June

I am using a 3 H.P. gasoline driven pump. Part of the system is 2" aluminum sprinkler pipe. The remainder is 3/4" to 2" diameter rubber

Dear Mr. Cochrane:

One of the conditions of approval of your water Permit No. 29-7259 was that evidence of the extent of development must be submitted to this office on or before July 1, 1980. (See last page of your approved permit). Enclosed is a post card which may be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use post card or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect within 60 days.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

In the Matter of Protests Against Approval)	
of Application for Permit No. 29-7259)	NOTICE OF CONFERENCE
in the name of JOHN F. COCHRANE)	AND/OR HEARING
-----)	

On April 10, 1975, John F. Cochrane filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On May 12, 1975, the Department received a protest against approval of said application signed by the following individuals: Delbert S. Parker, Steve Rhoads, Jr., Robert U. Schiers, R. J. Lacey and Jack L. Rucker.

The Department has set the matter of protests for conference and/or hearing for Tuesday, June 10, 1975, at 1:00 p.m., in the Conference Room of the Municipal Airport, Pocatello, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestants may allow the Department without prejudice to dismiss the protests or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 27th day of May, 1975.

RE: Application for Permit No. 29-7259

Dear Mr. Cochrane:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 29-7259. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 41-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Very truly yours,

RONALD D. CARLSON

Dear Mr. Parker:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

Dear Mr. Higginson:

We, the undersigned, protest to the additional use of the water from Pocatello Creek. We feel, until our acreages are developed beyond agricultural use, the water use should remain ours by prior rights. The unstable flow of Pocatello Creek will not allow for a greater use than it is now subject to.

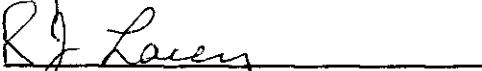

We therefore request that the permit asked for by John F. Cochran, be denied.

10. Remarks The hillside which I want to irrigate with sprinklers will hardly grow anything without water. An agronomist (Keith Campbell, J-R. Simplot Co.) says it is doubtful that anything will grow very well without the water. Last spring, at his recommendation I applied 10 lb. of crested wheat grass per acre with a cyclone seeder. This seed did not become established. With adequate water he claims I can have good pasture plus some trees for windbreaks. The present hill doesn't even have junipers - only sparse sagebrush. With water and fertilizer I believe I can change this grey-ton barren hillside into a green, eye-appealing pasture area. I don't expect it to be a profitable operation (the sprinkler system) but it will greatly enhance the beauty and eye appeal of it plus increase its utilization. I would like the opportunity to try the sprinkler system. Thank you for your consideration. John F. Cochrane
